

Lehoczki Károly

Guitar solo on the Avon

Pavement
yellow
dappled grey
brand new
rather old
clay walls
tiled roof
cracked beams
wrought iron
fences
meandering
approaching
dodging
tourists
blue
turquoise
scarlet
sweater
clouds
camera
filtered sunlight
barred windows
street noise
staring vacantly
collide
pardon
pavement
brick houses
meandering on
vendors
aromas
feeling hungry
my phone ringing
taking the call
don't be silly!
stepping aside
will you take care of it?
thank you
crunching
drops
walking further
riverside
grass verge

swans
boats
sandstone
bridge
traffic
double decker
spacious square
people gathering
synthesizer
restaurant
bicycle
parked
drum machine
synthesizer
tables
customers
slowly munching
street corner
standing around
Chinese
Arabic
black
curly
tiny
holding hands
I can't see
drum machine
walking around
synthesizer
gray hat
drum machine
drum machine
two of them
open guitar case
someone approaching
coins
clinking
keyboard
leaning over
beating notes
white hat
guitar stand
empty chair
guitar
loudspeakers
swaying
rhythm
blond
hugging
faces

eyes
faces
the third
in no hurry
sit down
shoulder-length
fine hair
black hat
guitar
bearded
picks it up
strikes the strings
screaming
heartbreaking
strings
drum machine
synthesizer
guitar
guitar
guitar
floating around
drifting
jaw dropping
unbelievable
stoop over
gob smacking
faces
river
bridge
boats
restaurant
faces
eyes
guitar
guitar
synthesizer
camera
soaring
stares
exited
brimming over
blinks
wipes
watching them
guitar
guitar
guitar
name the tune?
drum machine
synthesizer

guitar
the neck
the strings
fingers
leans back
flowing
astonishing
unknown
stand around
crowding
soul
screams
wails
melody
virtuosic
little town
born here
immortal
even now
still today
guitar
guitar
minutes
years
his spirit
fatefully
guitar
strumming
life
happiness
evanescence
guitar
passage of runs
drum machine
synthesizer
is swirling
unearthly
guitar
guitar
frantic
guitar
cosmic
ratatat
strings
palm
mute
silence
silence
stand about
silence

fidgeting
coins
clinking
guitar case
long hair
black hat
raises it
nod
dropping
clinking
silence
disbanded
leans over
smile
whispers in ear
keenly
street noise
cloudless
blue sky
empty square
wings
swishes
angels
