

Nonprofit Consultants “BootCamp 2019”

SUCCESSION PLANNING

Learn to Become a Certified Nonprofit Succession Planning Consultant and Trainer using materials and strategies developed by one of the nation's most experienced succession planning and leadership continuity specialists.

SEATTLE, WASHINGTON
June 27, 2019

*A Signature Leadership Continuity Program of
Third Sector Company and Interim Executives Academy*

The nonprofit sector is experiencing growing rates of employee and volunteer transitions. Many issues that consultants help nonprofit organizations resolve can be linked to the impacts of high employee and board turnover, lack of talent planning and development, and an undemonstrated commitment to diversity, inclusion, equity and access. With less than a fifth of nonprofit organizations prepared for succession, it is essential for the nonprofit sector to have well-trained consultants and more succession planning education programs available in local communities. Each year, Third Sector Company offers a full-day Boot Camp with year-round support services and opportunities to help consultants strengthen their succession planning expertise. Graduates earn a certificate, a digital badge indicating completion of succession planning studies and access to materials to teach in their workshops and engagements.
