Sunset Room

Hollywood

Located in the heart of Hollywood, Sunset Room is the ideal venue for all types of events, including weddings, corporate and entertainment events, and premiere parties.

Designed specifically with events in mind, the venue is a space that can easily be transformed to a client's vision or can be used with its in house design for a turn key event. The contemporary features such as the main bar, have a polished yet simple feel, while the venue still boasts its original wood bow and truss ceiling. The glass and steel wall separating the terrace from the main room, allows beautiful natural light to come inside, and also creates an openness to the space overall. The venue has plush furnishings in a velvet navy blue fabric, accompanied by white marble and gold accent tables. All the furniture is modular and easy to move, so clients are able to customize the space to their liking.

The venue also includes a built in DJ booth, Stage for performances, LED Lighting and LED Wall, and a Line Array Sound System.

For Event Inquiries or Information, please contact Talene Kanian, Director of Events, at talene@sunseteg.com or (323) 463 - 0004.
