

Dura-Chem, Inc.

*Modern Technology; Traditional Service
Since 1978*

MAJOR PRODUCT LINES

Plating Chemistry
Anodizing Chemistry
Powder Coating Chemistry
Cleaners & Degreasers
Rust Prevention
Lubricants & Coolants
Hydraulic Fluids
Paint Stripper
Fluid Handling Systems
Degreasing Equipment
Powder Coating Filler

LAB SERVICES

Custom Lab Analysis
For All Chemical Types

SPECIALTY PRODUCTS

Drawing Compounds
Black Oxide Salts
Zinc Die Cast Cleaners
Heatbath Chemicals
Chromate Conversion
Lincoln Chemicals

ACCESSORIES

Tanks\Baskets
Filters
Spin Dryers
Plating Barrels
Heaters – Controls

CLEANING EQUIPMENT

Dip Tanks
Hand Parts Washers
Ultra-Sonic Units
Spray Cabinets
Custom Tanks

AQUEOUS CLEANER/DEGREASERS V.O.C. COMPLIANT

HD Degreaser

HD Degreaser is a HEAVY-DUTY, multipurpose, water-based industrial strength degreaser that provides a safer solution to hazardous chemicals with the benefit of a powerful aqueous cleaner.

Aqua-Solve 1-M

Aqua-Solve 1-M is a mild, industrial-strength, general purpose degreaser where a mild pH is required. Aggressive degreasing and certified V.O.C. free by A.Q.M.D. Contains flash rust protection.

Multi Clean NG2

Multi Clean NG2 is a powder cleaner designed to remove buffing compounds and other tough to remove soils. It is designed for all metals in high-pressure, high-temperature spray applications and will not discolor Aluminum, Brass or Copper. No foaming above 130 degree, contains rust protection.

Ultra Clean SP-M

Ultra Clean SP-M is designed for all metals in high-pressure, high-temperature spray applications. It will remove dirt, oil, grease and grime. This super compliant detergent has a neutral pH and is VOC free. Product is safe on all metals and will not discolor Aluminum, Brass or Copper. No foaming above 130 degree, contains rust protection.

Ultra Clean LPH

Ultra Clean LPH is designed to clean all metals in a manual-hand-parts washer. It will remove dirt, oil, grease and grime. This super compliant detergent has a neutral pH and is VOC free. Product will not discolor Aluminum, Brass or Copper.

Aluma Clean B.V.

Aluma Clean B.V. is a liquid cleaner designed to remove buffing compounds and other tough to remove soils in any type of heated cleaning equipment. It's safe for all metal types and will not discolor Aluminum, Brass or Copper. No foaming above 130 degree, contains rust protection
