- The Watercolor Wings is a 3 step stamping process. I used these inks:
 - 1) Daffodil Delight- Stamp off once before stamping on card stock for light image
 - 2) Crushed Curry for the second stamping
 - 3) Memento Black for the third step
- To create the fold for the flap: With a pencil on the front of the card
Put a tic mark at the top left edge at ½”
Put a tic mark at the right side at 3 ¾”
Connect the marks with a score line using your Stampin’ Trimmer and the scoring blade.
Fold to the front being very careful to keep ½” all the way down the left side. Critical!
- Do the inside layers next so you can line up the front squares perfectly over the inside.
I used the small butterfly three step stamping with the above colors . Use the dots stamp from the set and Versa Mark ink to add interest to the Crushed Curry card stock and Crushed Curry dots to the Whisper White.
- FrontWhite Square: Stamp the dots on the square first and then emboss with dots folder. Attach to the black layer and then carefully line up to match the inside layer and attach to the flap. Put your adhesive on the flap not the back of the square!
- Butterflies: Stamp the larger butterfly in three steps with colors shown above. Cut out with the framelit and then stamp the body. Determine position on the square, stamp antennae, then attach butterfly with glue dots. Cut out small butterfly with the framelit. Attach silver thread with a glue dot to make the antennae.
- Stamp “Just For You” on the ribbon with White Craft ink. Add small butterfly and bling!
