

# CLOUD

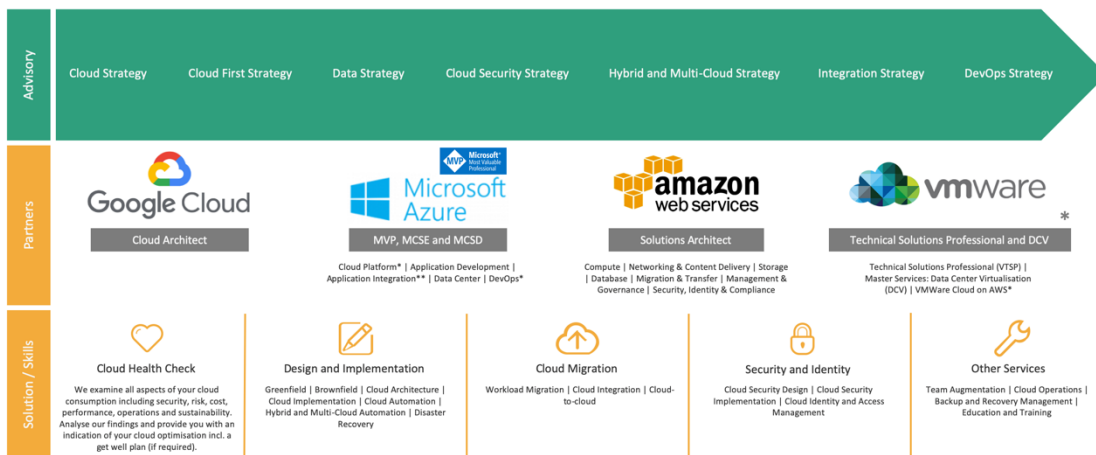

We live in a dynamic, cloud-centric world where business responsiveness is crucial. The cloud has become the backbone of the modern workplace and is the launchpad for innovation and competitive advantage. A clearly defined approach embracing rapid delivery is key to reaping these rewards.

## Questions we help answer

*Is the cloud the right thing for me? Am I leveraging the cloud appropriately? Do I need a Cloud First strategy? Can you help us in our cloud journey?*

## WHAT WE DO?

At Transfit, we can assist in your cloud journey, no matter what stage you are at. Our expert advisory services can help define or refine your cloud adoption strategy through our vendor agnostic approach. Together, we can maximise organisational agility and scalability in your dynamic business landscape.

\* denotes partnerships are in progress.

## Problems we fix

With Cloud, we help fix the following problems:

- Lack of vision and direction in leveraging cloud services
- Limited Shadow IT transparency
- Shortage of experience and knowledge, such as cloud security, architecture and workload migration
- Inadequate disaster recovery and business continuity
