

VISION

To be synonymous with successful digital transformation.

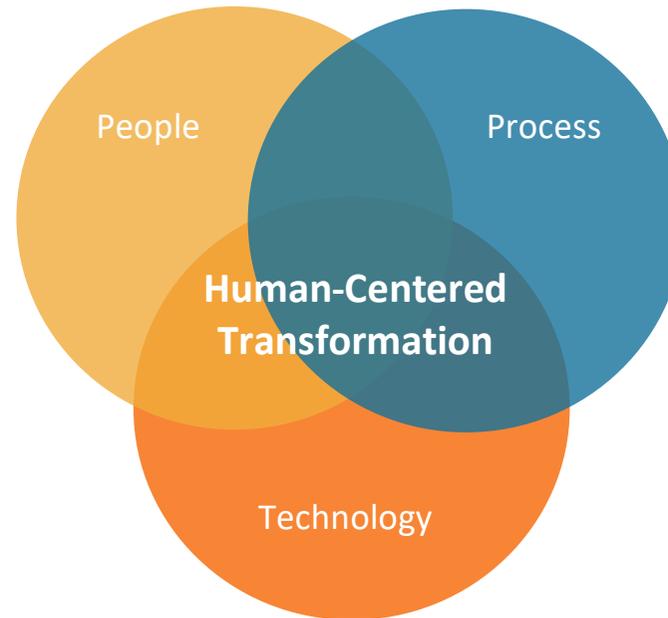

MISSION

With you, we take a human-centered approach, focused on bringing together the best of people, process and technology.

Your Success Our Obsession

WHY TRANSFIT

We're experts in 'end to end' digital transformation, bringing together the best of technology and business consulting. We understand that true transformation can't be achieved through technology alone. It requires a collaborative approach, focused on strong stakeholder engagement that delivers positive and enduring change. Customer success is at the centre of everything we do. This directly influences what we offer, who we hire and how we deliver.

PROBLEMS WE FIX

Isolated and unfounded digital strategy

Unrealistic action plan

Too much customer churn

Minimal employee engagement

Challenges faced with Shadow IT

Technical debt preventing transformation

Lack of agility to respond to business needs

Costly operational inefficiencies (too much waste)

SERVICES WE OFFER

AND THE QUESTIONS WE HELP ANSWER

STRATEGY AND ADVISORY

What problem are we trying to fix? Where do I want to get to? And where do I start? How do I get there?

SUCCESS SHAPING

Am I doing the right things at the right time? Do I need to get rid of my technical debt first before we embark on a digital transformation?

CLOUD

Is the cloud the right thing for me? Am I leveraging the cloud appropriately? Do I need a Cloud First strategy? Can you help us in our cloud journey?

BESPOKE APPLICATIONS

Is bespoke the right solution for us? Our application doesn't meet our needs anymore, can you help? Are we going to benefit from DevOps?

DELIVERY ASSURANCE

Are we managing the changes well? Is Agile even appropriate for us? How can we be Agile? How can we better manage risks?

ENTERPRISE APPLICATIONS

How can we improve our customer and/or employee experience that drive engagement? What is a digital modern workplace? How does Software-as-a-Service get us there faster and improve our services at the same time?

DATA AND INSIGHTS

Do we know where our data resides? How do we better manage and secure our data assets? How do we make sense of our data and provide actionable insights?
