

DELIVERY ASSURANCE

A thorough solution will only provide benefit when it is executed in a meaningful manner. Independent agile assurance provides an extra layer of confidence to delivery teams and the projects owners. We conduct adaptive assurance activities in a way that adds value to the healthy functioning and growth of a business.

Questions we help answer

Are we managing the changes well? Is Agile even appropriate for us? How can we be Agile? How can we better manage risks?

WHAT WE DO?

At Transfit, our qualified and experienced consultants support you throughout the project lifecycle by providing a stable, iterative and open approach to delivery. Our broad expertise in providing practical and actionable recommendations help promote confidence in the program and consistently ensures realisation of intended benefits.

Advisory	Portfolio Management Strategy	Agile Implementation Strategy	Project Management Strategy	Risk Strategy	Change Management Strategy
Frameworks	<p>Agile WIP</p>	<p>Lean Agile WIP</p>	<p>Portfolio & Project WIP</p>	<p>Risk Management WIP</p>	<p>Change Management WIP</p>
Solution / Skills	<p>Assessment</p> <p>Assessment based services across portfolio, project, change, agile and risk management. Analyse our findings and provide you with an indication of your maturity incl. a get well plan (if required).</p>	<p>Capability Development</p> <p>Help design, develop and run your own internal capability across delivery assurance. This ranges from portfolio and project, risk, change and agile. We leverage best practice frameworks like SAFe (Scaled Agile), LeSS, Agile PM, Prince2 and PMI Risk Management.</p>	<p>Coaching / Mentoring</p> <p>Leading by example and inspiring others, our coaching/mentoring services will ensure that your teams maximise their capability, speed up adoption and reduce any productivity issues along the way.</p>	<p>Organisational Readiness</p> <p>We help organisations manage change effectively by focusing on the cultural shift required, stakeholder engagement plus defining and executing the right communications and adoption strategies to ensure we address the "hearts and minds" effectively.</p>	<p>Education & Toolkits</p> <p>We provide tailored education services across delivery assurance, to ensure your teams have the right knowledge in being able to their jobs successfully.</p>

Problems we fix

Delivery Assurance can help drive the following:

- Create a culture of shared responsibility within the project and organisation.
- Define a well-rounded and thorough definition of project success.
- Prioritise and streamline portfolio investment priorities and product backlogs.
- Promote objectivity when gauging project success.
