

I haven't been in a Classical Christian School before. Will I be able to successfully transition?

This is a valid question. We know that the Classical Christian model has a reputation for being a rigorous academic program with a strong Biblical worldview. We hear about students all around the country who have attended this kind of school and are seeing amazing results in testing, in college placement, in being a productive member of society. Here's why we think you should consider Byne Christian School:

Our faculty and high school advisors understand that each student is unique with God-given gifts and talents.

Each new perspective family meets with the headmaster. Being able to get to know the student and parents is the initial step in picturing how you can transition into our school.

Additionally, each student is given an assessment to better evaluate their academic strengths and weaknesses. Our advisor evaluates transcripts and records to determine if we can offer your student a schedule that will fit for their post high school educational endeavors.

Our small classes allow us to get to know each of our students' strengths and weaknesses.

Never taken a logic course? No problem! We want to help you argue well. 😊 Never really studied Ancient Egypt? No problem! By the time your child explores the colorful world of Ancient Egypt and Greece, we think even parents will agree that the projects and memory work will be worth it.

We recognize that it may take some time to get up to speed with the dialectic reading schedule. Our memory work in the elementary years is nothing to sniff at either. However, with a sensibly implemented plan, and clearly defined goals, we believe that a graduate of Byne will feel ready to take on the new challenges they face.
