WESTERN OFFICE – KALAMAZOO, MI

(616) 201-6237

PUMPING EQUIPMENT

ABEL® PUMPS, L.P. – Piston membrane pumps for filter press feed and sludge transfer. High pressure pumps. Electric motor driven diaphragm pumps. Solids handling pumps up to 2,600 psi.

FLOWERVE/SIHI – SIHI^{DRY}, Gas Liquid Ring Vacuum Pumps and compressors, oil seal packages.

REPUBLIC MANUFACTURING – Rotary Vane and Claw Pumps, Regenerative and Centrifugal Blowers, Air Knife Systems, Central Vacuum Systems and Accessories

MIXING AND BLENDING EQUIPMENT

MAGNA-SAFE® INTERNATIONAL, INC. – Mag-Drive, Seal-less mechanical agitators for top and bottom entering mounting. Prevents product contamination, leak proof CIP/SIP sterilization, eliminates costly mechanical seals, maintenance free, high pressure/high temperature design.

PFAUDLER – Glass lined reactors, tanks, columns and engineered process systems. (Dow Chemical/Dow Corning)

EDLON – Engineered polymer and fluoropolymer materials (i.e. linings, dip tubes, baffles, etc.)

NOV – Exclusive manufacturer of the following:

CHEMINEER™ and PROCHEM™ top, side and bottom-entry agitators

KENICS™ static mixers and heat exchangers

GREERCO™ high-shear mixers.

HEAT TRANSFER EQUIPMENT

KENICS™ – Static Mixer Type Shell and Tube Heat Exchangers

PICK® HEATERS INC. – Direct Steam Injection Heaters. Industrial, Sanitary, Chemical, Pulp and Paper. Steam Injection Packaged Systems and Custom Designed Systems.

WATER/WASTEWATER AND ENVIRONMENTAL EQUIPMENT & SYSTEMS

Applied Mechanical Technologies (AMT) – Engineered components and complete industrial wastewater treatment systems, metal treatment, oil/water separators, multimedia filters, dissolved air flotation and clarifiers.

HEIL® – FRP equipment, including scrubbers, odor control systems, fans, FRP duct and tanks. Complete ventilation systems.

TANK and OPERATING EQUIPMENT

SHARPSVILLE CONTAINER CORP. – Vessel products and operating equipment in stainless steel and other alloys. Various sizes and shapes up to 30,000 gallons.

STANWADE METAL PRODUCTS, INC. – Custom and standard vessel products and operating equipment in carbon steel. Various sizes and shapes from 300 up to 30,000 gallons.
