Title: Three-Goal Soccer

Ark. framework	Grade level	Warm up activity (stretch, run/walk, stations)	Assessment
PEL.2.5.5 Demonstrate mature <i>motor skills</i> in <i>lead-up</i> game situations: <ul style="list-style-type: none">• Dribbling (Feet)• Kicking	5th	Team Warm Up	Observation
Instructional Target Outcome (Big Idea)			
Students will play a lead-up soccer game that involves the motor skills of dribbling (feet) and kicking.			
Classroom Activity Directions/			
Students will play a soccer-based game involving three different teams in which they are always in play during activity time. This game can be played as a constant and a winner does not have to be declared during this game. There will be multiple soccer balls in play during this activity to maximize participation. Each team has a goal with 3-4 “prizes” behind it. Whenever a student kicks a ball into an opponent’s goal, they get to take one of the prizes from that team and run it over to their goal. With three teams and multiple soccer balls in the activity area, this game promotes continuous movement and gameplay.			
Ties to Literacy	Specific Vocabulary		Essential Questioning
‘Turn and Talk’ to your elbow buddies about the main rules of the game.	Dribbling (Feet) Kicking Mature Motor Skill		What are some examples that show that an individual is demonstrating a mature kicking or dribbling pattern?
Resources, Materials and Visuals		HOT	
Indoor soccer balls, cones, colored pennies, “prizes” (colored cones, robber rings, etc.)		Students will demonstrate mature motor skills of kicking and dribbling (feet) during a lead-up game situation.
