NOTICE: The listing of a person and/or business merely indicates that they have met Newport Utilities requirements for listing as an approved backflow assembly tester. NU does not endorse the use of any of these testers. Newport Utilities does not currently require State certification in order to do the necessary repair work that is occasionally needed on your domestic assemblies. In the event that your domestic assemblies are in need of repair, one of the above companies may be contacted if you so choose. This list is provided to assist customers with meeting Newport Utilities cross-connection requirements and is accurate as of June 30, 2011. If you have any questions regarding backflow prevention and cross connection control, please call Leonard Allen at 423-625-2819.
