

ACCESSORIES & TRIM

TOPS, BASES, LEGS, PULLS, PLATES & BENCHES

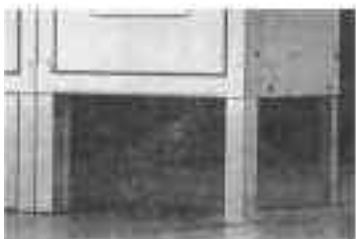

Individual Sloping Tops provide a finished appearance, prevent trash accumulation on locker tops and discourage using locker tops as storage areas. The rise of the slope is 1/3 the locker depth. Standard flat tops are omitted.

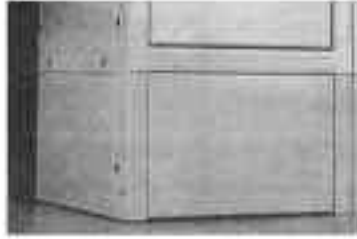

Continuous Sloping Tops provide a smooth, finished appearance for lockers mounted along walls or in island groups. The rise of the slope is 1/3 the locker depth. Customize your installation with sloping top splices, valley corners and hip ends — all without exposed fastener.

Recess Trim really sets off your recessed locker installations. The trim has a 3" face and a 1/8" top return. Integral corner caps and hairline joints reinforced with welded-on splice fingers leave a clean appearance. When used with Mondrian® or Designer lockers, the trim can be set in a sculptured design (locker projects 1" beyond wall) or a flush design (locker projects 1/8" beyond wall).

6" Legs may be furnished with all lockers. Front legs are an extension of vertical frames. Adjustable rear angle legs are provided for every third upright.

20 gauge Closed Front and End Bases give a finished appearance to lockers with legs. Closed Bases also cover the hard to clean area under the lockers.

16 gauge Zee Bases offer an attractive & economical way to raise lockers above the floor and create an overhang or "toe space." Available in 3", 4" and 6" heights.

Standard Box Locker Pull provides a convenient finger pull and serves as a padlock strike and lock hole cover. Made from 20 gauge stainless steel.

Number Plates feature 1" high black numerals on brushed aluminum to permit easy locker identification.

Benches and Pedestals

Benches and Pedestals have an overall height of 17½". Benches are 9½" wide x

1¼" full finished thickness laminated maple. Pedestals consist of sturdy 1¼" diameter tubing with 10 gauge steel flanges welded to each end.

Moveable Benches consist of maple bench tops mounted to free standing trapezoidal-shaped

pedestals. Pedestals are made from 1¼" x 3" aluminum bar stock and feature a black anodized finish. Non-skid pads are provided for each pedestal. Maximum bench overhang from middle of this pedestal must not exceed 6 feet.

ADA Compliant Benches & Pedestals have an overall height of 17½". Benches are

48" wide x 24" deep 1¼" full finished thickness laminated maple. Pedestals consist of sturdy 1¼" diameter tubing with 10 gauge steel flanges welded to each end. Four pedestals required.
