

# PLASTIC LOCKERS

METAL DOESN'T STAND A CHANCE.

PRACTICAL. PREFERRED. PLASTIC.

Quick installation and low maintenance costs can add up to a 50% life cycle cost savings with plastic lockers. Plus, this fully-assembled product is backed by a 20-year warranty and made from 30% post-industrial recycled content. In terms of durability, versatility and product life, metal lockers fall far short of this solid plastic solution.

### Economic Advantage: Plastic Lockers vs. Metal Lockers

Plastic lockers may require an additional investment up front, but the savings on repairs and maintenance will make up the difference over the locker's 20-year life cycle.

	METAL LOCKER	PLASTIC LOCKER
Painting (4 times)	\$100 per locker	\$0
Door Replacement (2 times)	\$110 per locker	\$0
Cost (100 Lockers)	\$21,000	\$0

Maintaining 100 metal lockers for 20 years with four paint jobs and two door replacements per locker would cost \$21,000!

### Resilient for the Long Haul

Unlike metal, plastic lockers are constructed from corrosion-proof high-density polyethylene material that won't rust or dent. Plastic lockers are also more resistant to scratches and are easier to repair than metal lockers. Plastic lockers are now available in 100% post-consumer recycled material. Four colors are offered in the new materials, which is made completely from recycled milk jugs and provides the same performance requirements as the current plastic – and the same 20-year warranty.

### Forget about Maintenance

You get maintenance-free lockers that still look new after years of use. Even spray paint and magic markers are easily removed with standard cleaning products.

Plastic Lockers

### Pedestal Bench

Locker room benches complete the long line of solid plastic products for your restroom and locker room applications. Benches are 1½" high-density polyethylene (HDPE) and are available in 16 of our standard colors. Black anodized aluminum pedestal, 18½" ADA compliant height.

### Z-Lockers

The new Z-Locker design provides practical multi-level storage for overcoats, suits, dresses and other hanging articles without wasting valuable floor space. Perfect for health clubs, YMCAs, spas, aquatic centers and fitness centers.
