

December 4, 2012

The Alberta Association of Agricultural Societies wishes to extend our support to the Lethbridge and District Exhibition for redevelopment of Exhibition Park. Agricultural Societies like Lethbridge provide significant and ever expanding relevance to their communities. We commend the diligence of the Lethbridge organization for their research and planning to ensure the long term success of their project, their organization and the community at large. Their diversified approach will ensure adaptability for changing times and continue to positively impact the economic and social growth of the region.

Regards,

Jennifer Filip  
President  
Alberta Association of Agricultural Societies
