

A GOLDENWEST Radio Station

January 28, 2013

CKVN radio supports Lethbridge Exhibition Park's bid to redevelop and expand it's property. Having partnered with LEP for various annual events including Ag Expo, an expanded facility would allow for these events to grow and thereby attract more visitors. A larger facility would also attract new events - previously not optional because the facility was not large or adequate enough to host them. The City of Lethbridge would undoubtedly benefit from the additional traffic from both a revenue and profile perspective.

We look forward to seeing how this project unfolds and are excited about the positive impact it would have on the City of Lethbridge.

Regards,
