

Dear Renfrew County Community Theatre Supporters,

In the wake of COVID-19 pandemic, we at *Streetlight Theatre Company*, recognize and sympathize with the struggles and hardships that all of our community members are enduring. We want you to know that we believe together, we can come through these difficult times, stronger and more resilient.

Streetlight Theatre Company, like many not-for-profit organizations, is facing very real and challenging times going forward. As a non-profit organization, we rely heavily on the unwavering support of our community, primarily through production ticket sales, and for that support, we are always grateful, as these sales allow us to fund our theatre art performances throughout the year. However, as a result of the current pandemic, our upcoming season of theatre performances have been postponed until further notice. This has a significant effect on our ability to pay our operating costs.

Given this uncertain situation, *Streetlight Theatre Company* is at serious risk of losing the ability to pay the rental and operating costs that would usually be supported through production revenue. Through the years, *Streetlight Theatre Company* has been investing in rehearsal locations, props, equipment and costumes storage, etc., to allow us to put-on first-class productions. Without production revenue, it may become very difficult, if not impossible, to recover.

We are hoping to enlist the financial support of our local performing arts patrons. If we can sustain our rental and operating costs through generous community support, it will allow us to be able to continue to put on productions in the future, most likely at a time when our community will need entertainment, once government restrictions are lifted. Whether you are a patron, a performer, or both, we are asking for your financial support to help us weather this storm.

You can donate to Streetlight Theatre Company thru e-Transfer at streetlightpembroke@gmail.com or directly by cheque addressed to: P.O. Box 1313, Pembroke, ON. K8A 6Y6.

We look forward to our first performance post COVID-19, to celebrate with a great piece of theatre, right here in the Ottawa Valley. Our wish for everyone, is good health, safe from all harm and plenty of happiness, as we move forward to a brighter tomorrow.

Thank you in advance for your generosity, in supporting theatre that brings people together.
