

Small, independent geotechnical laboratory with expertise in soils mechanics, rock mechanics, materials testing, geosynthetics testing and construction services

Laboratory services certified by AASHTO re:source, CCRL and GAI-LAP

Advanced Terra Testing (ATT) has vast rock mechanics testing capabilities. Dr. Hamid Nazeri utilizes his decades of experience to assist clients in making the best choices for their projects. The combination of ATT's Rock Mechanics experience and the wide variety of testing offered make ATT the ideal location to provide laboratory services for a wide range of clients.

► General testing

- ASTM D7263 Moisture Content and Density (Modified for Rock)
- ASTM D854 Specific Gravity (Modified for Rock)
- ASTM D4318 Atterberg Limits (Modified for Rock)
- ASTM D4644 Slake Durability

And more!

► Hardness

- ASTM D5873 Rock Hardness
- ASTM D7625 CERCHAR Index
- Mohs Hardness

► Dimension Stone

- ASTM C99 Modulus of Rupture
- ASTM C97 Absorption and Bulk Specific Gravity
- ASTM C170 Compressive Strength

► Strength

- ASTM D5607 Direct Shear
- ASTM D7012 TCS and TCS/SS
- ASTM D7012 UCS and UCS/SS
- ASTM D3967 Direct Tensile
- ASTM D3967 Brazilian
- ASTM D7070 Creep Test
- ASTM D5731 Point Load
- ASTM D2845 Sonic Velocity

And more!
