

Achilles™ Risk & Compliance Platform

Continuous Risk & Compliance Made Simple

The Achilles Platform, as part of the Cyber Lantern Ecosystem, provides **automated risk assessments** tailored to an organization's compliance needs. Regardless of where you are on your security journey, or as a risk assessment business Achilles helps to quickly identify the compliance gaps or improve organizations overall security posture. Achilles uses a proprietary risk model that includes technical environment and business factors to map threat, impact and susceptibility. With Achilles, your team can spend less time and money assessing risk, and more time preventing it.

Achilles Features

Policy Review and Guidance

- Automatic assessment of your policies by simply uploading your documents.

Multi-Compliance Support

- Covers several compliance models including CMMC, NIST, and others.

Custom Impact & Threat Score Based on Organization's Context

- Industry vertical threats
- Recent similar attacks (global and local)
- Security industry intelligence

Continuous Assessments

- Track your security improvements with continuous assessments to show your company's security progress to executives.

Holistic Security Integration

- Integrates with Cyber Lantern Detection and Response Platform for improved alerting context and security task prioritization.

Stop paying for point in time assessments. Threats, risk and your network environment are not static so why should your risk calculation be?

Three Simple Steps to Compliance

1- Upload Your Documents

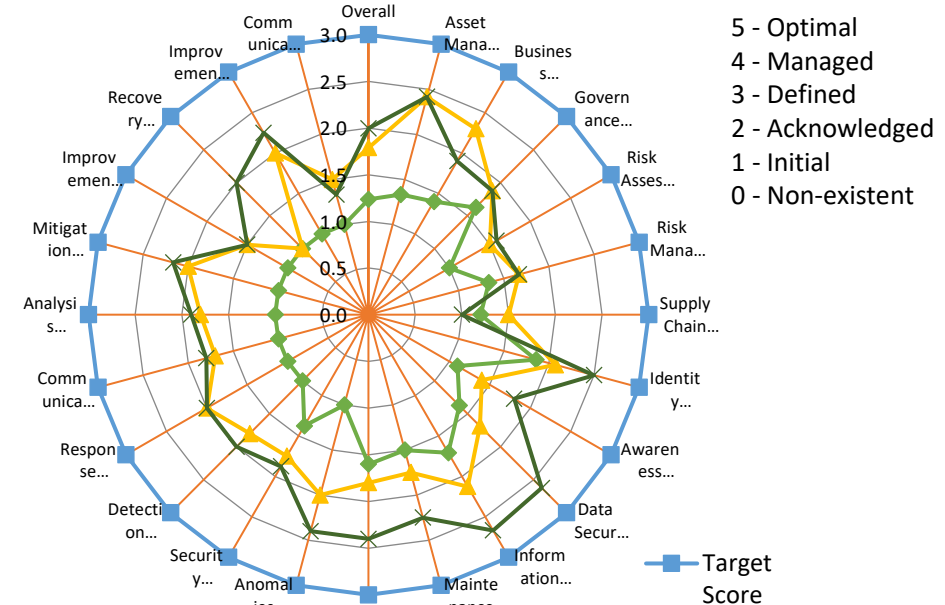

Add your policies and scans for rapid assessment results. Don't have these? We provide templates and tools to help you!

2- Identify Your Gaps

Answer the compliance questions to see if your policies match your practices.

3- Remediate Your Risk

Review your results and identify where you are most susceptible to begin immediately improving your security posture and becoming compliant.

Automate & Proven Achilles PPT Maturity Score

Achilles™ & Cyber Lantern Security Use Cases

Where are you on your security journey?

Whether you are looking to start your compliance journey or enhance your current security posture Achilles can help your team get there faster and at a fraction of the cost.

We finally answer the questions:

Who is attacking you? Will their techniques work? What is my Threat Risk?

Use Cases

Small to Mid-Size Enterprise (SME)

Your entry point into security.

- Turnkey assessment of your current environment.
- Fully integrated platform providing risk scoring, detection, response, and ticketing.
- 24x7 security monitoring and response.
- vCISO support to help map out your security strategy.

Enhance Your Security Posture

Decrease Risk, Improve Security

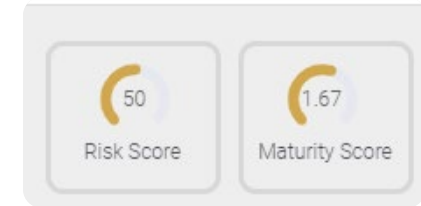

- Vendor neutral platform to map current investments to your needs.
- Provide same day learning and value on your current risk posture.
- Detection and Monitoring services available to fill resource gaps as needed.
- Visibility into areas of your business that you currently don't have.

Compliance Assurance

Get and Stay Compliant

- Avoid using 3rd party consulting services that are lengthy and expensive.
- Continuous assessments to track compliance improvements.
- Verify your compliance level for insurance claims, certifications, and other business needs.

With Cyber Lantern, the organization instantly meets **55%** of the **CMMC Technology and Practice Controls** which means you start your compliance journey at maturity score of **1.25**; well on your way to CMMC Level 3 and Above

We measure your organization's maturity across:

Policy

Do your security policies encompass industry best practices?

Practice

Do you practice what you preach? Do your policies match your formalized procedures?

Technology

Is your technology implemented correctly and actively managed by trained staff?
