

Notice to Homeowners

Dear Homeowner,

We want to announce that we have installed three proposed samples for our new street light project for the residents to see. They are at 673, 681, and 689 Northshore Drive. We have marked them #1 #2 #3 so that it will be easy to identify them. The sconces on either side of the garage door will match the light fixture selected. The black fluted pole and skirt that has light fixture #1 on it, is the pole and skirt that will be installed throughout the community.

We are surveying our residents so that you can voice your opinion on which of the three samples you prefer. We ask that you email us your opinion with the number of the light you prefer to info@thodc.com. This will help the Board in their decision making. We ask that your opinions be emailed back to the email address noted above no later than November 30th.

Further updates will be provided to you, our residents, as they become available.

The Board of Directors
