OVERVIEW

As we dive into another year of ministering and educating in Nicaragua, we are thrilled to report great numbers for our institute this past winter and now into the spring! From surrounding areas and a few local churches, we have several new individuals starting their training and education this year. It has been an eventful year in many aspects, but we are so grateful for how God has given guidance and provision as only He can!

This year we have a total of 62 students enrolled in our institute in Managua! This number is made up from 36 students enrolled in our weekend

Saturday Institute and 26 students going through our standard IBIN Day institute throughout the week.

Although there have been many varying factors, it is exciting to see growth and progress in different aspects for the Institute. Technology has been a wonderful asset this year for us! Simple things like video calls have enabled us to engage with individuals and leadership on a regular basis. Despite travel bans and other complications this year, we have been able to stay in touch to keep things moving and growing!

It has been an interesting run for Nicaragua as a country within the realm of COVID-19. The government's general methodology for dealing with

it has essentially been to downplay it. In the grand scheme of things, this did set back much of their ability to be prepared medically and has affected their access and distribution of a vaccine in country. Testing has been very limited, so there's no real clear

indication of the real affect overall. We are so thankful we serve a God who is in control even when we don't see or

understand it completely! He has taken care of our people in so many special ways and has given grace and comfort throughout this entire year.

We thank you for all the support that has been provided this year! We could not do this without your generosity and are grateful for your prayers as well. We look forward to updating you again soon as God continues to open doors for us!
