NBM NEWSLETTER

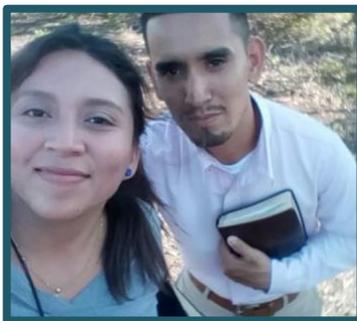

OVERVIEW

For this newsletter we are going to be spotlighting a specific church planter in Nicaragua. This young man has been working diligently in Ometepe (below), a large island in Lake Nicaragua. He is a graduate of IBIN in Managua, so we are proud to see his continued growth as a believer and his passion for serving God and others. Today we will take a brief look at some of the work he has been heading up, and a need he had that has been met in an incredible way!

MINISTRY SPOTLIGHT:

Pastor Jonny, La Iglesia Bautista De Ometepe

Pastor Jonny and his wife, Adriana, have been working hard to reach the people on the island of Ometepe. They have seen tremendous growth in their main church and ministry, with salvations and

baptisms being the wonderful fruit of their labor and faithfulness to reach their surrounding communities.

We are so thrilled to see God's work through this man and his family!

Being located on an island, there is certainly no shortage of places to hold baptisms. It is always exciting to see people making public professions of faith in Jesus Christ!

Pastor Jonny sets up evangelistic meetings on the island whenever and wherever possible. As you can see, he has had some great turnouts for these services!

Recently Jonny had reached out about a specific need for a motorcycle. Although public transportation is available, there were multiple needs both within his ministry and for his family that could be met by attaining a personal vehicle.

We are glad to report that through the humble generosity of an individual's gift, a donation from a US-based church, and another contribution from a Nicaragua-based church, the motorcycle has been purchased! This is just another blessing to report as God continues to use this man and provide for him as he seeks out more outlets to reach the people of Ometepe!

The enthusiasm and work ethic of this church planter is so encouraging to us! Please take time to pray for this man and his family as they continue to serve God in Nicaragua.
