

As part of our faith-based mission *to enrich the lives of homebound seniors*, KSC offers affordable, dependable, friendly, and safe transportation for our KSC In-Home Care senior friends. There will be a time for each of us when the risks of driving outweigh the benefits. Safety for our seniors and for others on the road is a serious matter. As a community we must offer high-risk seniors transportation options that make being chauffeured a more appealing and preferred alternative while keeping them connected to our community. At KSC we believe *it's the journey, not just the destination* that matters. For KSC's senior passengers, it means going the extra mile by:

- * offering to take notes in their medical appointment
- * giving them a bottled water to help keep them hydrated
- * texting their family member to let them know they have safely arrived at their destination and/or back home
- * surprising them with a flower or a Blessing Gift
- * calling them on their birthday
- * praying *for* them and the situations they share

The car conversations and the friendships formed are special. Our senior passengers receive supportive door-through-door service and are treated with honor and respect. The drivers are blessed knowing they have made a difference in someone's life with simple acts of kindness in Jesus' name.

Currently we are limited to our KSC In-Home Care seniors. Occasionally we transport additional west side homebound seniors to appointments. This depends on if volunteer drivers are available. Donations to the ministry are accepted for transportation appreciation. For more information or to become a volunteer driver, contact KSC at 316-209-9028.

NOTE: We are looking to add a wheelchair accessible van to accommodate those seniors who are not ambulatory. When funds are collected to purchase this specialized van, we will update this information!
