

GRADUATION

It is the intent of Explore Knowledge Academy to foster an atmosphere of high student achievement and success. We believe the completion of the Senior Project, a 120 hour capstone project, is a necessary part of our educational platform and a requirement of all graduating seniors. All seniors will be enrolled in two semesters of the class entitled Senior Seminar. In order to participate in the graduation ceremony and any senior activities, seniors at EKA are required to successfully complete:

1. Two semesters of Senior Seminar with passing grades for both semesters.
2. Participation in the public presentation of their senior project.
3. All graduation requirements set forth by the State of Nevada and Clark County School District.

Students that have completed the necessary credits and graduation requirements set forth by the State of Nevada and Clark County School District, but not completing the Senior Project requirements of EKA, will receive their diploma after the graduation ceremony date.
