**Tuesday, January 26<sup>th</sup> - 7 pm  
Birds of Columbia County and Build a Bird House  
with Mud Creek Environmental Learning Center!**

Fluff up your feathers and come explore birds in winter! The winter months are a great time to learn how to identify birds and build a bird house to use come spring. Birding is fun and everyone can enjoy it! New York State's diverse habitats support over 450 different bird species.

During the January 26<sup>th</sup> interactive online event, we will learn the basics of bird identification with Pamela Price, Certified Wildlife Biologist and Education Program Coordinator at Mud Creek Environmental Learning Center as well as some of the common birds in Columbia County. We will also provide information on building your own bird house for our feathered friends.
