About Us

Founded in 2001, the Scottsdale International Film Festival celebrates humanity. We showcase a blend of films to satisfy a broad range of interests and tastes. There are smaller films for the appreciative, daring cineaste; and bigger, more mainstream films that reveal the burgeoning of the commercial market—a wonderful mix of film genres from light-hearted comedies to period dramas chosen from all corners of the world.

During its 20-year history, the Festival has presented more than 700 films ranging from major Academy Award© winners to undiscovered indie gems to more than 100,000 attendees. We pride ourselves on being the only film festival in the Valley with a focus on multicultural, art house, independent and foreign film.

Highlights from 2020

While it's true that hundreds of festivals held online streaming events during the pandemic, this was our first ever streaming Festival –and the rousing response from our patrons made it an unqualified success. We featured 20 films from around the globe which played 24-hours per day over five days. The virtual attendees built their own viewing schedules and streamed 20 films from the safe and comfortable confines of their own homes. Amongst the highly-curated offering was the Phoenix Film Critics Society's Jury Award selection for: Best Film – BOY MEETS GUN and the Audience Award for Best Film went to WINDOW TO THE SEA.

2021 Goals

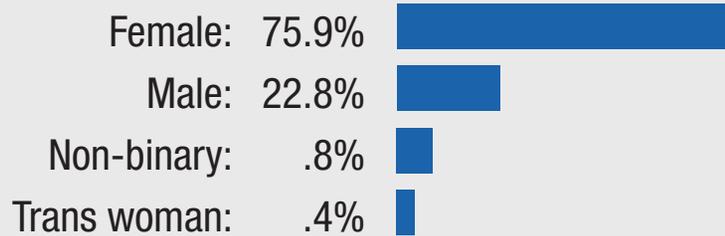

We intend to return to a physical event with an online component so that people can participate virtually. The Festival will exhibit 20-25 films over five days. COVID-19 still represents a challenge for the Festival but our team is committed to producing an event that meets the highest standards.

Directors, cinematic scholars, high profile actors and directors, and film critics from around the country and our own community will again be invited to participate in virtual Q-and-A discussions – a favorite benefit with our audience.
