## GARBAGE SERVICE

In early 2008, prior to this administration, a contract was signed with the Landfill which gave them the option of picking up the garbage for the residents of Adamsville. They have opted to begin this service themselves and began servicing our residents on July 27, 2021. Under this contract, they are to provide the same quality of service that was being offered by the City. If you have any questions regarding your garbage service, please call 205-767-5592.
