

## Population Growth

Source: Department of Finance, 1980-2020

When Moorpark became a city in 1983 there were only 4,030 residents. Our community has grown and transformed dramatically since that time and 36,278 people now call Moorpark home.

What will our community look like in 2050? What will our local economy look like? Where will people live and work? Where will we gather and shop? How will we get from place to place? We are starting to plan.

Join us for a community conversation about the future of Moorpark and **HELP US PLAN!**

# Community Visioning Workshop

November 19, 2020

6:00-8:00 PM
