DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Avenger Weed Killer is a broad spectrum weed killer that contains d-limonene. D-limonene is the citrus oil that is extracted from the rind of oranges. Avenger Weed Killer is non-selective and controls most annual weeds, both grasses and broadleaves. It is recommended for areas such as borders, driveways, patios, sidewalks, around mature trees and ornamentals, around building, in greenhouses, fencerows and around flower beds.

Avenger Weed Killer is fast acting with quick visible results. Foliar contact results in control of annual grasses and broadleaves and top growth reduction of deep rooted perennial weeds. Re-treatment may be required for control of perennial weeds or older, hardier weeds. For best results, shake bottle vigorously and thoroughly coat target weeds. A white emulsion should be visible when spraying to visually mark sprayed weeds. If this white emulsion is not seen, shake bottle again to insure complete mixing.

For Control of SMALL ANNUAL WEEDS: apply Avenger Weed Killer to the foliage of the small weeds (less than 6 inches) making sure leaves are thoroughly wet and uniformly covered. Do not apply if a strong threat of rain is expected within 2 hours.

For Control of LARGER ANNUAL WEEDS and BURNDOWN of PERENNIAL WEEDS: Larger annual weeds (more than 6 inches) and perennials are more difficult and may require re-treatment. Treat as described above. Best results are obtained when applied to young, actively growing weeds. Weeds that are mature, dormant or hardened due to moisture stress are more resistant to herbicide treatment.

Do not apply this product through any type of irrigation system

NOTE: All contacted vegetation is affected. Avoid contacting desirable plants. Overspray or drift will injure or kill contacted vegetation. DO NOT spray on lawns - it will damage or kill treated grass.

STORAGE AND DISPOSAL:

Do not contaminate water, food, or feed by storage or disposal. STORAGE: Keep from freezing. Store only in original sealed container and keep out of reach of children. PESTICIDE DISPOSAL: Securely wrap original container in several layers of newspaper and discard in trash. CONTAINER DISPOSAL: Do not reuse container (plastic bottle). Rinse thoroughly before discarding in trash.
