CRC Grant Endorsement Framework

Context The Corryong Community Recovery Committee is required to endorse/support projects before they can be considered for some bushfire recovery grants. These include but not limited to BRV/NBRA LER grants, Victorian Bushfire Appeal fund grants.
Corryong CRC also needs to respond to requests for letter of support for other grant programs.

Terms of Reference:

- advise Towong Shire and other funding bodies of the need for funding for community projects and initiatives
- assist other community groups to attract funding and provide assistance to support community recovery projects

Key Principles The CRC grant endorsement process will endeavor to:

- Keep it simple
- Be timely in providing endorsement or advice on no endorsement
- Not require additional information than that already required by the proposed granting body.
- Decisions will not be subject to appeal

Endorsement The Community Recovery Committee will assess and rank grant applications against three criteria:

- community based proponent (does it benefit the community and address a community need?)
- proportion of relevant community benefiting from the project and
- alignment to the CRC priority areas and recovery goals.

Process:
Application Proforma application of project summary to be submitted for the CRC process. Proforma to be available on the Corryong CRC page of the Upper Murray Recovery website.

Submitted to corryongrecovery@gmail.com

CRC Review Applications will be a standing agenda item and must be received by the Friday before the meeting.
CRC will review applications at the meeting. The applicant will be advised in writing on the success or rejection of the application as soon as possible following the CRC meeting. The written letter can be used by the applicant in any grant they are seeking.

NOTE: Endorsement does not mean the grant application will be successful. Approval is the responsibility of the granting body.

Successful
The Corryong CRC is pleased to support the fundraising application submitted by <INSERT ORGANISATION>, for the project <INSERT PROJECT TITLE>.
<INSERT PROJECT SUMMARY IF REQUIRED>
A project of this nature aligns with the Corryong CRC community recovery priorities of <INSERT RELEVANT PRIORITIES> and will strengthen community resilience, support mental health recovery and increase social connectedness for the <INSERT BENEFITING COMMUNITY/SOCIAL GROUP>.

Unsuccessful On behalf of the Corryong CRC, I am writing to inform you that the submission for funding from <<insert organisation name>> for <<insert project title>> does not address a recognised community recovery priority. We recommend that you seek funding from other funding sources. Examples of grants that are available for community projects can be found
