

## 2.7 Student Satisfaction Survey

2.7.1 Student Satisfaction Survey (SSS) on overall institutional performance (Institution may design the questionnaire) (results and details be provided as web link)

In the survey conducted on student satisfaction, students have mentioned that they are satisfied with the well maintained infrastructure, syllabus, internal evaluation process, continuous quality improvement, methodologies for enhancing learning experiences, etc. They are quite satisfied with the mentoring and monitoring system existing in the college and that they are greatly assisted by regular class tests and assignments during the year. By and large they feel that they have become more confident which teaches them to have a better value based life. Observations of the students were that faculty are co-operative, all opportunities are available, improvement in the confidence level of the students, satisfaction with the results of the Institution, encouragement towards Higher studies. The college ensures that the students are provided various platforms to reach the authorities with their suggestion and feedback. Apart from the formal feedback taken in each semester, the students can convey their concern through a suggestion box placed at the main entrance. Overall satisfaction is thoroughly evaluated through the feedback system.
