

Integrated Payment Hub

Simplify and consolidate enterprise payments

Streamline payments processing to improve operational efficiency

Banks and financial institutions can improve their operational efficiency utilising highly available and cost-effective wholesale payments solution by SolutionsAe. The solution helps banks deliver superior experience to their enterprise clients by providing an integrated platform to perform inter-bank large value real-time payments, clearing and settlement governed by central banks; using globally accepted standards. Provide payments processing without building an infrastructure using SolutionsAe's hosted solution.

Overview

In a highly regulated and competitive market, banks need every advantage to exceed customer expectations and differentiate. It is no longer enough to offer simple and automated Banking services. To succeed in today's business environment financial institutions need integrated real time payments with monitoring capability, ease of adding new payment products and complying with regulatory bodies.

SolutionsAe's Payments Hub aids banks to seamlessly perform operations like corporate banking, treasury and trade finance. The solution reduces operational costs and increases throughput by maximizing the rates of Straight Through Processing. SolutionsAe's Mandate Management Solution, available both as a licensed product as well as on a hosted platform, can give a boost to the bank's corporate business by streamlining their bulk receipts.
