

# CAPABILITY STATEMENT

**TRIKKE TECH, INC.** designs and manufactures Personal Electric Vehicles in the USA since 2009, featuring proprietary 3-wheel drive and cambering technology with enhanced stability and maneuverability. The unique TRIKKE vehicles are engineered specially for the professional market, with rugged construction for continuous on/off-road use, all-weather reliability and endurance.

*TRIKKE Vehicles provide a mounted solution for covering large areas more efficiently than on foot, at less environmental impact and operational cost than driving an automobile, with added capability for transporting cargo.*

### Personal Electric Vehicles (PEV) for:

- Personnel Mobility
- Physical Security
- Perimeter Surveillance
- Mounted Patrol
- Maintenance Support
- Emergency Response
- Materiel Mobility (w/ trailer attachment)
