

## JOB POSTING

### Lead Operator (Fox Creek - Kaybob)

#### ACCOUNTABILITY:

Reporting to a Foreman, this position is responsible for, but not limited to:

- Optimizing and troubleshooting daily well and facility operations in a cost effective manner
- Overseeing overall operations while mentoring and training operators
- Promoting safe work practices, ensuring that all operators are following EH&S policies and procedures
- Taking a lead role in ensuring preventative maintenance programs are maintained and kept up to date
- Interacting with landowners and 3<sup>rd</sup> party processors handling complaints as they arise
- Assisting Foreman in administrative duties such as invoice coding, approval, and PVR integrity
- Providing input and guidance to maintenance crews and contractors working on RBR sites
- Participating and providing input into RBR's corporate and site specific Emergency Response Plans (ERP)
- Commissioning new well and equipment start ups
- Ensuring compliance with all Regulatory and RBR policies (i.e. ABSA, ERCB, AENV, OH&S, Pipeline integrity)
- Track and maintaining team operational costs

#### QUALIFICATIONS:

- The successful candidate will have a minimum 5-10 years Oil and Gas operations experience
- Preference will be given to candidates who reside in the area
- Solid understanding of regulatory requirements
- Previous experience working with new well startups, downhole/completions, process troubleshooting, and well optimizing is required
- Knowledge of conventional multi well oil batteries, single well batteries and tank treating systems
- Strong leadership and interpersonal skills
- H2S and Gas Lift Systems experience would be considered an asset
- Ability to work independently
- Minimum Grade 12 High School diploma
- Class 5 drivers' license
