WATCH AND WAGER, LLC
AT CAL EXPO
COVID-19 OPERATIONAL PLAN
INTRODUCTION

Watch and Wager, LLC plans on running a harness meet at the Cal Expo State Fairgrounds beginning November 21, 2020. Horsemen are planning on bringing horses back to the area October 1, 2020. As such, Watch and Wager recognizes that there is a need to develop an operating plan during the current COVID-19 Pandemic.

What follows is Watch and Wager’s plan to best protect employees and California Horse Racing Board trainers and grooms working and living on our backstretch.

Watch and Wager harness racing has been closed since April 2020. To prepare to reopen the facility, Watch and Wager has been working diligently to identify best practices that follow the recommendations from public health organizations, including the Sacramento County Department of Public Health and the Centers for Disease Control.

The health and safety measures outlined in this Operational Plan are our top priority.
Watch and Wager LLC
Harness Racing at Cal Expo
COVID-19 Protocols
Updated September 10, 2020

New Policy for
Owners/Trainers/Grooms/Employees found on www.CalXHarness.com

Restricted Facility Access

1. Racing Office:
   a) Entries for all races will be taken by telephone or online only.
   b) All racing office personnel in the racing office must wear masks.
   c) All racing office personnel must adhere to social distancing requirements by providing each individual with the required six feet of space.

2. Grandstand/Paddock/Winners Circle:
   a) All Watch and Wager harness racing facilities will be subject to enhanced cleaning and sanitization protocols.
   b) The grandstand will be closed to the public.
   c) Non-essential personnel will not be permitted to enter the facility.
      i. Non-essential personnel include all public service employees (e.g., food service, wagering tellers, ushers, admission staff, etc.)
      ii. To limit outside exposure, no owners or fans will be allowed at the track at any time.
      iii. Media is allowed to enter if following social distancing and Watch and Wager guidelines.
      iv. No guests will be allowed. No exceptions.
   d) Watch and Wager security will be present at the Grandstand and paddock entrances to sign in and grant access to essential personnel only.
   e) Hand sanitization will be available at Grandstand entrance and in the paddock.
   f) All public areas of the Grandstand will be closed for viewing of morning workouts.
   g) Only one race at a time will be allowed in the paddock.
h) The Winners’ Circle will be closed and there will be a temporary suspension of all Winners’ Circle ceremonies and photo opportunities. The winner of each race will parade past the Winners’ Circle for video filming and exporting only.

i) All TV’s will be removed from the paddock and the paddock judge’s TV will be moved from the window and will only face into the office.

j) Only those essential personnel licensed by the California Horse Racing Board who have horses entered on race day will be permitted in the paddock for their race only.
   i. Essential personnel include racing officials, safety staff, ambulance drivers and specialized janitorial staff will be allowed in the paddock and will maintain social distancing. The essential personnel will be allowed in the paddock to perform their official duties only.
   ii. Anyone entering the paddock for the first time during the race card will proceed immediately to the paddock judge’s area to have their temperature taken. Anyone showing any sign of sickness or elevated temperature will be asked to leave the paddock. Once a normal temperature has been ascertained, a wristband – color coded for that evening – will be given all qualifying personnel. The wristband must be worn for the entire program.

3. Drivers’ Room Protocols:
   a) All drivers will have their temperatures tested daily at the paddock entrance prior to paddock entry. Grandstand entry to the drivers’ room is not permitted. All drivers must go through the paddock and have temperatures taken. Any driver showing signs of illness will be denied access. Assigned wristbands must be worn for the entire program.
   b) Only drivers scheduled to drive in races will be permitted entry to the drivers’ room.
   c) The drivers’ room is off limits to all except for the drivers’ valet and the drivers.
   d) Drivers will maintain their own driving equipment throughout the night.
   e) The sauna in the drivers’ room is closed.
   f) The valet and all drivers will be required to wear a face mask while in the drivers’ room. Drivers will wear a mask from arrival until leaving.
   g) Drivers who choose to leave the state to drive at other racetracks will not be permitted to drive at Cal Expo without being COVID-19 tested and negative results presented to Watch and Wager management prior to driving. There are no exceptions.

Additional Protocols during Live Racing

1. Trainers and Essential Personnel/Grooms
a) All trainers will be required to wear masks.
b) All grooms will be required to wear masks when escorting horses to the racetrack and in the paddock.
c) Only the trainer and one groom will be allowed to accompany each horse.
d) Trainers who choose to leave the state for any reason must have a negative COVID-19 test before returning to Cal Expo and the results presented to Watch and Wager management.

2. Essential On-Track Personnel:
   a) The outrider on the track will be required to wear a mask.
   b) All starting car personnel will be required to wear a mask.
   c) The starting car will be disinfected by the starting car driver in between races.

**Personal Protective Equipment (PPE)**

The following PPE is being initiated and utilized for the Watch and Wager Harness meet at Cal Expo:

a) Temperature monitoring will be performed at all entry checkpoints and recorded for documentation.
b) Thermometers are all Hawkeye Non-Contact Infrared. They provide a fast assessment without personal contact.
c) Masks must be worn by all personnel on site, including drivers.
d) Gloves must be worn by all essential personnel.

**Controlled Access Areas and Documentation for Training**

**Restricted Facility Access:**

1. Backstretch and Stable Areas:
   Access:
   a) No visitors or guests may be signed in by licensees. No exceptions.
   b) Masks must be worn by all personnel onsite, including the stable area and racetrack at all times.
   c) Only trainers with horses presently stabled at Cal Expo for the Watch and Wager Harness meet and essential personnel licensed by the state who are responsible for the care of these horses (veterinarians, grooms, farriers, etc.) will be permitted access to the backstretch and stable areas.
   d) Horses racing and shipping from in-state farms who are accompanied by essential, licensed personnel will be allowed to enter the barn area with temperature screens for the personnel. Horses shipping from out of state must have appropriate Coggins and health certificates and all accompanying personnel must have a valid COVID-19 test certificate certifying they tested negative.
   e) Gate 12 will notify Watch and Wager personnel and temperatures of van drivers will be taken and documented.
f) Whether in-state or out of state, horse transportation into the stable area is permitted only from 6:00 am to 6:00 pm daily. Drivers who arrive at other than the designated time must call Kate Phariss, Backstretch Operations at 209-256-4631 so that arrangements can be made to have the van driver’s temperature taken before they enter the grounds. Any driver showing signs of sickness will be turned away. Trainers will have to make arrangements with that van driver to transport the horses from outside the entry gate (Gate 15) to the trainer’s barn.

g) Van drivers shipping horses to Watch and Wager at Cal Expo may not bring in additional personnel. Only the van driver, as essential personnel, is allowed to enter the facility.

h) Veterinarians attending to emergencies are required to go through all applicable security protocols prior to entry.

i) Gate 12 personnel will retain a log of all personnel who enter and exit the backstretch by filling out the In/Out sheets with the van driver’s name, date and time of entry and exit.

j) All Watch and Wager security personnel will be required to wear masks and gloves.

k) All essential employees will be educated on the proper removal and disposal of masks and gloves and will receive regular protocol updates.

Track Kitchen:

a) The drivers’ room track kitchen will remain open for takeout service only and only for essential personnel. Track kitchen is NOT open to the public.

b) Six foot social distancing spacing lines have been set up in the track kitchen.

c) Dedicated security for the kitchen will be present to ensure that essential personnel respect required social distancing protocol.

d) No in-kitchen dining will be allowed. Take out only.

e) No congregating to watch races on TV in the kitchen will be allowed.

Veterinarians and Trainers – Stable Protocols

(Complete veterinary protocol attached as Appendix 1):

a) Watch and Wager employed veterinarians will be required to wear masks and gloves for horse inspections.

b) Veterinarians will be required to follow strict hand washing and hand sanitizing protocols between races in case horses need to be examined.

c) Trainers will be limited to essential personnel only in their designated barns.

d) Only one person will be permitted in a tackroom and/or office at any given time.

e) Tackrooms and offices will be sanitized after individual use.
f) Tack and barn equipment will be assigned to specific personnel only. Trainers will provide Watch and Wager with a list of the specific personnel.

g) All tack and barn equipment will be sanitized daily.

h) Tack and barn equipment will not be stored with other equipment until it has been clean and sanitized.

i) Living quarters tackrooms will be assigned to trainers and can only be shared by two people at the maximum. Those two people must be family/household members. No visitors will be allowed in living quarters tackrooms. Only residents registered with Watch and Wager are permitted in the living quarters tackrooms.
WATCH AND WAGER LLC

Track Access Restriction Policy

(COVID-19 Prevention Program)

Restricted Access to the Grandstand and Paddock

- Only CHRB-licensed trainers who have horses racing that evening are allowed on the track for the night program.
- Trainers' designated staff may include a groom and up to one attendant per horse
- Essential personnel include racing officials, such as designated by the CHRB, safety staff (ambulance drivers, track maintenance crew) and specialized janitorial staff to clean the paddock and sanitize the facility.
- To limit outside exposure, no owners, media or fans will be allowed on the track.
- No guests. No exceptions.
- Trainers and their designated staff may only access the grandstand, paddock and racing areas for their designated race and must depart these facilities prior to the harnessing for subsequent races.
- Only trainers and their designated staff may accompany their horse into their assigned stall in the paddock. Each horse shall be led into the stall and the trainer AND/OR one of their designated staff must exit the paddock thereafter.
- Only one race at a time will be allowed in the paddock.
- The paddock is closed to everyone other than trainers and/or their designated staff required to accompany each horse to and from the paddock or racetrack for their assigned race.
- Horses will be hooked to race bikes in the paddock and proceed directly to the racetrack.
- Drivers will mount their race bikes in the paddock and will then continue to the post parade and warm up.
- Starting gate car will be disinfected between every race and the driver and starter will be required to wear masks and gloves and will maintain proper social distancing.
- Non-essential personnel will not be permitted in the paddock or grandstand.
- Non-essential personnel to be prohibited include all public service employees (e.g., food service, wagering tellers, ushers, and admission staff).
• No presentations or photos are permitted in the Winners’ Circle.
• No wagering or food service will be available in the grandstand.
• The Press Box will be closed to all but the official chart caller and Watch and Wager management who will maintain social distancing.
Watch and Wager
Quarantine Plan

In cases where any stakeholder is deemed to require quarantine, the Security Department lead will make a determination of further actions and emergency response up to and including any crisis management protocols that may be required.

A) Should a non Watch and Wager (W&W) backstretch worker be deemed to require quarantine, the Key Decision Executives Christopher Schick and Benjamin Kenney will be immediately contacted to arrange for any initial medical examination and/or testing (where possible).

B) The arrangement for any off-track quarantine will be the responsibility of the CHHA working with the Race Track Chaplaincy of America affiliate (Assistant Rob Cochran (650-867-5230). All attempts will be made to provide any needed quarantine at an off-track location.

C) The CHHA and the Race Track Chaplaincy of America affiliate will be responsible for encouraging voluntary compliance and summarizing supplies and services that will be provided to support the worker to enhance the likelihood of compliance.

D) For emergency and temporary purposes only, W&W has allocated a tackroom and an adjacent restroom for the quarantine of any non W&W backstretch worker. The Security Department will provide monitoring support but the overall responsibility for operating and overseeing the quarantine process will be the responsibility of the CHHA and the Race Track Chaplaincy of America affiliate.

E) Any non W&W backstretch worker refusing voluntary quarantine will be denied access to the track and will be deemed as trespassing and removed from W&W premises by the Security Department along with Cal Expo Police Department should they attempt to re-enter.

F) Determination of the term of quarantine and the discontinuation of any quarantine process (off-track or on-track) will be the responsibility of the Key Decision Executives or CHHA. However, the following Quarantine Rules from CDC should be followed and overseen by the Key Decision Executives and/or CHHA:

The timeframe for quarantine is 14 days following the last day of exposure to a patient with COVID-19, to ensure that the contact does not get sick themselves and spread the virus to others. Adherence to quarantine instructions may depend on the support provided to contacts.

Quarantine requires that a contact remain in a specific room separate from other non-exposed people and pets in the room, and ideally with access to a separate bathroom.
G) For up-to-date information regarding Sacramento County Health Department's “Return to work” guideline:
http://www.saccounty.net/COVID-19

NOTE: In the likelihood of any W&W or non W&W backstretch worker testing positive for the COVID-19 virus, the following parties shall be immediately notified:

1. Sacramento County Public Health (916-875-5881)
2. CHHA – Jimmy Perez – (916-263-7888)
3. Watch and Wager – Christopher Schick or Benjamin Kenney (916-800-1395)
4. Watch and Wager on track – Kate Phariss (209-256-4631)
WATCH AND WAGER STANDARD OPERATING PROCEDURES
FOR HUMAN INFECTIOUS DISEASE CONTROL

EFFECTIVE DATE AUGUST 27, 2020

1. PURPOSE

Watch and Wager's Veterinary Team's role as Lasix Administration and Association Veterinarian is to promote horse safety and welfare. This includes protecting the people who care for horses during outbreaks of human infectious diseases.

2. SCOPE

This document covers the best practices and guidelines for minimizing the spread of human infectious disease at the Watch and Wager harness track during:

A) Examination of horses for training.
B) Observation of racing and training, including responding to incidents on the track.
C) Furosemide (Lasix) administration.
D) Any other interaction with Watch and Wager staff, trainers or trainers' staff.

3. RESPONSIBILITIES

The Association Veterinarian and Lasix Administration Veterinarian and any of their veterinary staff are responsible for the following:

Minimizing the risk of spread of human infectious diseases in the case of widespread viral outbreaks or pandemics.

4. PROCEDURES

A) At all times, the Association Veterinarian and Lasix Administration Veterinarian and veterinary staff should follow current recommended guidelines from the CDC.
B) During visits to the backstretch, including examinations for working horses and administration of Lasix, veterinarians should observe the following:
a) Wear a face mask and gloves. These should be changed daily and disposed of with medical waste.
b) Maintain a 6-foot distance from trainers and staff whenever possible.
c) Not shake hands or come into other physical contact with trainers or staff.
d) Not share pens or equipment.
e) Wash hands or use hand sanitizer between each examination at a minimum.

C) During observation of training or racing, Association Veterinarian should observe the following:
a) Maintain a 6-foot distance from staff and horsemen.
b) Cover mouth and nose when coughing or sneezing.
c) Not shake hands or come into other physical contact with staff or horsemen.
d) Not share pens or equipment.
e) Wash hands or use hand sanitizer.

D) When providing furosemide (Lasix) administration, the Lasix Administration Veterinarian and staff should observe the following:
a) Wear a mask and gloves.
b) Maintain a 6-foot distance from staff and horsemen.
c) Ask the individual holding the horse to stay on the opposite side of the horse while furosemide is administered, if possible.
d) Not shake hands or come into other physical contact with staff or horsemen.
e) Not share pens or equipment. The requirement for signatures from horsemen is temporarily suspended. Please write the name of the horsemen's representative on all necessary documentation.
f) Wash hands or use hand sanitizer between each barn at a minimum.

E) If responding to an incident on the track, Association Veterinarian should observe the following:
a) Wear a mask and gloves.
b) Put the care of the horse first, but try to maintain distance from others attending to the scene, when possible.
c) Limit the number of people on the scene to required individuals only. For most emergencies, the horse ambulance driver, the employee holding the horse and the veterinarian should be sufficient. The veterinarian on the scene can request additional assistance as needed through the outrider.
d) Only one person should ride in the ambulance with the horse.
e) Wash hands or use hand sanitizer following the incident and interaction with others.

F) When interacting with other veterinarians or other Watch and Wager staff, Association Veterinarian and Lasix Administration Veterinarian should observe the following:
a) Maintain a 6-foot distance whenever possible.
b) Wear a mask and gloves.
c) Not shake hands or come into other physical contact.

d) Cover mouth and nose when coughing or sneezing.

e) Not share supplies unless necessary and sanitize shared equipment such as radios.

f) Wash or use hand sanitizer frequently.

G) If an Association Veterinarian or Lasix Administration Veterinarian or their staff feels sick or is displaying symptoms consistent with the current infectious disease, the Association Veterinarian or Lasix Administration Veterinarian will:

a) Notify Watch and Wager through Director of Backstretch Operations.

b) Notify the CHRB Official Veterinarian.

c) Stay home for the duration of symptoms or as mandated by local health authorities and track policy.

H) If an Association Veterinarian or Lasix Administration Veterinarian or staff receives a positive test result or diagnosis of the infectious disease, the Association Veterinarian or Lasix Administration Veterinarian will:

a) Notify the Director of Backstretch Operations who will work with the other track veterinarians, staff or trainers that they have been in contact with or could have been exposed to the virus. The Director of Backstretch Operations will communicate with the appropriate individuals.

b) Self-isolate for 14 days and seek medical care as needed.
Personal Protective Equipment  
(COVID-19 Prevention Program)

Watch and Wager is committed to ensuring that appropriate and sufficient personal protective equipment (PPE) is provided to employees to help limit the spread of COVID-19. In addition, our janitorial staff also maintains a supply of PPE appropriate for their duties. The following PPE (subject to availability) will be maintained on-site by Watch and Wager and provided to employees according to the needs and potential hazards of their respective duties:

- Nitrile Gloves (all sizes)
- Face Coverings (cloth, bandanas, etc.)
- Hand Sanitizer (various containers & volumes). Hand Soap & Disinfectants
- Temperature-taking Devices (IR Thermometers).
- Color coded wristbands assigned to those with a “normal” temperature for the evening.
- First Aid Kits (including sterile gauze for temperature taking)

Determination of appropriate PPE will be based on the respective Job Safety Analysis, corporate "COVID-19 Task Force" recommendations and applicable CDC health guidance. "Essential" employees, including Security & Operations gate personnel, will be required to wear face masks and gloves. Face coverings & gloves will be provided to all employees, regardless of their duties, upon request.

Responsible parties for PPE at Watch and Wager include:

Kate Phariss/ismar Flores
Stable Area Access & Quarantine Policy
(COVID-19 Prevention Program)

I. Purpose:

Watch and Wager harness racing at Cal Expo has identified risks for our stabling and racing facilities as it relates to COVID-19 and precautions we must undertake to ensure the safety of our employees, stakeholders, horses and to reduce opportunities for COVID-19 virus spread. The protocols and procedures herein will apply to ALL persons who require access or who work/live in any Watch and Wager harness racing at Cal Expo stabling or racing facilities.

II. Access to Stabling or Racing Facilities:

Effective immediately, all access to the stabling or racing facilities will require pre-screening for ALL attendees. Security Department staff stationed at the stable or walk-in gates will ask a list of four (4) simple questions to determine COVID-19 symptoms, potential exposure to the virus or to confirm any recent international travel consistent with local public health service guidance.

All stabling or racing facility attendees must present a current CHRB license or relevant credentials to the posted Security Department staff member. If the visitor has not been previously cleared, they will be required to answer the following questions before access will be granted:

I do not currently have, nor within the last 14 days have I had, any of the following symptoms:

- Fever or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
• Congestion or runny nose
• Nausea or vomiting
• Diarrhea

If I do experience any of the above symptoms, I will immediately notify track management and immediately arrange for off-track quarantine with the CHHA in accordance with the Quarantine Plan included in the WatchandWager, LLC at Cal Expo Reopening Plan.

Within the last 14 days I have not been in contact or in proximity to any individual with the above symptoms.
Living Quarters Tack Room Agreement

As a condition of being granted the privilege of using a living quarters tack room on the Cal Expo backside, the undersigned agrees to and acknowledges the following statements.

I have been provided an opportunity to read and have read the WatchandWager, LLC at Cal Expo Reopening Plan available at www.calharness.com and in the Racing Office.

I agree to abide by all requirements and directions included in the WatchandWager, LLC at Cal Expo Reopening Plan.

I do not currently have, nor within the last 14 days have I had, any of the following symptoms:

- Fever or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

If I do experience any of the above symptoms, I will immediately notify track management and immediately arrange for off-track quarantine with the CHHA in accordance with the Quarantine Plan included in the WatchandWager, LLC at Cal Expo Reopening Plan.

Within the last 14 days I have not been in contact or in proximity to any individual with the above symptoms.

I will only share the living quarters tack room with one other person for a total of two people at the maximum. I will not allow visitors in living quarters tack room. I will only permit residents registered with WatchandWager, LLC in the living quarters tack rooms.

By executing this agreement, I acknowledge that being granted a living quarters is a privilege and not a right. I acknowledge that the violation of any provision of this agreement will result in the immediate suspension of my living quarter tack room privileges.

Signed ___________________________  Dated ______________

Name ______________________________
COVID-19 Stables Protocol
for Trainers, Veterinarians, Horse Identifier and USTA Horse Tattoo Official

Veterinarians:

Watch and Wager veterinarians will wear masks for horse inspections and furosemide administration. We ask that trainers designate only one person from their barn to interact with our veterinarians to limit the human-to-human exposure for our veterinarians and our staff.

Additionally, Watch and Wager veterinarians will carry hand sanitizer with them and use it between barns as they perform any examinations.

Please do your best to keep as much distance between you and our veterinarians as possible – for all our safety. We realize that leaving the horse on a loose shank is not going to be possible with every horse, but try to stand on the other side of the horse from the veterinarian and create as much distance as possible.

We recommend that all private veterinarians consider employing similar measures as they move from barn to barn during this time.

Trainers:

Currently, we are still learning about COVID-19 as it pertains to zoonotic transmission (transmission between humans and animals). Per CDC guidelines, maintain good hygiene when dealing with all animals (washing/disinfecting hands and equipment after animal contact, limiting contact between animals when possible).

It is important to limit human-to-human contact. Consider whether you can limit the number of staff in the barn to essential staff or stagger shifts to ensure that there are as few people as possible in the barn at any one time – while this may not be convenient or how things are usually done, decreasing the number of people in an area is crucial to decrease the spread of this virus. It is advisable for each trainer to have one or two designated individuals to
work with veterinarians, farriers and other outside individuals to minimize contact with as few of your staff as possible.

Limit the number of individuals allowed in the tackroom or office at any one time. Ideally, only one person at a time should be in a tackroom or office at one time. Six feet is the minimum recommended distance between people. **IF YOUR STAFF CAN TOUCH ONE ANOTHER WITH FULLY EXTENDED ARMS, THEY ARE TOO CLOSE.**

Consider assigning equipment to specific barn personnel. For example, each hotwalker should have their own shank with their name on it. When stored, it should not be stored with other equipment until it is cleaned and sanitized. Other examples of equipment that should be limited to being touched by one person or as few people as possible:

- Each horse’s water and feed buckets
- Cross ties/stall ties
- Grooming supplies
- Tack (wipe down harness or soak it before and after use
- Halter
- Wheelbarrow/shovels/rakes/brooms

Additionally, each of the above should be sprayed, soaked or wiped daily. Also, have the following areas cleaned often throughout the day:

- Doorknobs
- Stall clips/gates
- Barn door handles
- Light switches
- Counters and desks
- Hoses and hose bibs

**COVID-19 is easily killed in the environment with most disinfectants - if we use them.**

Consider using the following:

- Lysol spray (or similar product)
- Hand sanitizers
- Diluted Nolvasan- povidone iodine, bleach or chlorhexidine
- Soap and water. A bucket of soap and water continuously available for hand washing or rinsing is convenient and effective — but it must be changed regularly if dirt or manure gets into it.

Trainers are encouraged to set up one or more sanitizing stations for your barn. The easier it is for people to keep things clean and disinfected, the more likely they are to do so.
Horse Identifier and USTA Horse Tattoo Official:
The horse identifier and USTA Horse Tattoo Official will wear masks for horse inspection and tattooing.

Additionally, the horse identifier and USTA Horse Tattoo Official will carry hand sanitizer with them and use it between inspections and tattooing.

For trainers, please do your best to keep as much distance between you and the identifier and tattoo official as possible for all our safety. If possible the person holding the horse for these individuals should be on the opposite side of the horse from where the work is being done.

IN ORDER TO CONTINUE RACING AND TRAINING AND PREVENT THE SPREAD OF COVID-19 FOR THE WATCH AND WAGER HARNESS MEET, WE ENCOURAGE EACH OF YOU TO FOLLOW THESE PROTOCOLS.

If you or any of your staff feels unwell, please do not come to work.
Illness Tracking Policy
(COVID-19 Prevention Program)

I. Purpose

Watch and Wager (W&W) has implemented the "W&W Illness Tracking Log" to be used for tracking any suspect illnesses related to the COVID-19 outbreak. This tracking log will be used to track both W&W employees and backstretch workers (non-W&W employees) on a single matrix.

II. Instructions

Any W&W employee incident will be logged by the W&W HR Department using the unique W&W "Employee Number" and any backstretch worker incident (non-W&W employees) will be logged by the W&W HR Department using the respective W&W Security Report number. This way, all individual ID's are protected to ensure HIPAA compliance. All noted "information cells" on the matrix are required to be completed for each incident.

The W&W HR Department will maintain the master copy of the tracking log. However, the W&W HR Department can extract the relevant information from W&W Security Reports for any non-W&W employees and provide that information to the W&W HR Dept. to ensure that the track has only one active and up-to-date version at any time should it need to be provided to a corporate contact or a regulatory/health agency.

Additionally, although W&W is tracking individuals with suspect illnesses/symptoms related to the COVID-19, W&W is required to follow the below notification protocol for any individual testing "positive."

III. Notifications

NOTE: In the likelihood of any W&W or non-W&W backstretch worker testing positive for the COVID-19 virus, the following parties shall be immediately notified:

1. Sacramento County Public Health (916-875-5881)
2. Watch and Wager – Christopher Schick or Benjamin Kenney through Kate Phariss (209-256-4631)

3. California Harness Horsemen's Association (916-263-7888)
Home Care Instructions
(COVID-19 Prevention Program)

Qualified medical professionals evaluated you today for an apparent viral respiratory infection (e.g., influenza, COVID-19 or other common respiratory viruses). At this time your illness does not require you to go to an emergency department. Your vital signs are within acceptable ranges, including your heart rate, breathing rate, blood pressure, and oxygen level.

It is important that you continue to treat your symptoms, monitor your own condition, and take steps to prevent spreading the infection to others.

You should follow the steps below:

• Stay home except to get medical care. Do not go to work, school, or public areas. Avoid using public transportation, ride-sharing, or taxis.

• Drink plenty of fluids to stay very well-hydrated. Drink non-carbonated fluids. Avoid alcohol.

• Take ibuprofen (Motrin, Advil) or acetaminophen (Tylenol) as needed for fever or body aches, unless you have previously been told not to use these medicines. For adults, the recommended dose for ibuprofen is 400 or 600 mg every 6 hours, and for acetaminophen the dose is 650 mg every 4 hours. For children, consult medication packaging for appropriate weight-based dosing.

• Separate yourself from other people and animals in your home. As much as possible, stay in a specific room and away from other people in your home. Use a separate bathroom, if available.

• If you need follow-up care, call your healthcare provider before going there. Call your healthcare provider and tell them that you have or may have the flu, COVID-19, or similar respiratory illness. Advise your healthcare provider that you were screened by a qualified medical professional and told at that time that you may remain at home. Your healthcare provider may arrange a follow-up visit with you in person or via telehealth. Alerting your healthcare provider in this way will help the healthcare provider's office take steps to keep other people from getting infected or exposed.

• Wear a facemask, if you have one, when you are around other people (e.g., sharing a room or vehicle) or pets and before you enter a healthcare provider's office.

• Cover your coughs and sneezes with a tissue then throw the tissue in the trash.
• Clean your hands often. Wash your hands often with soap and water for at least 20 seconds, especially after going to the bathroom; before eating; and after blowing your nose, coughing, or sneezing. If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty.

• Avoid sharing personal household items, such as dishes, drinking glasses, cups, eating utensils towels, or bedding with other people or pets. After using, wash them thoroughly.

• Clean and disinfect frequently touched objects and surfaces using a regular household cleaning spray or wipe.

Monitor your symptoms

If you are in any way worsening, please seek care by contacting your doctor, going to an urgent care center, or going to your nearest emergency department for further evaluation and treatment of your condition. This could include, but is not limited to:

• High or persistent fevers, vomiting, trouble breathing or shortness of breath, coughing up blood, severe headaches, neck pain/stiffness, or any new or worsening symptoms or concerns.

• If you unable to walk or you are experiencing shortness of breath that limits your ability to go by private car, please call 9-1-1. Before seeking care, call your healthcare provider, if possible, and tell them that you have a respiratory infection. Put on a facemask before you enter the facility. If you have a medical emergency and need to call 9-1-1, notify the operator that you have a respiratory infection and that a qualified medical professional has responded once to you regarding your symptoms. They advised to call back if my condition worsened. If possible, put on a facemask before any EMS arrives.

Discontinuing home isolation

If your doctor or local health department advises you to remain on home isolation precautions, please contact them for advice for when it is appropriate to discontinue this and resume normal daily activities.

If you have not been advised about home isolation precautions by your doctor or local health department, please stay home when you are sick and until there is no fever for a minimum of 24 hours without medicine like Tylenol, Motrin, or Advil.

*Recommendations related to coronavirus may change over time. Please check the CDC website for updates on home quarantine, preventing disease spread and treatment.

Driver Social/Physical Distancing Policy
(COVID-19 Prevention Program)

PURPOSE – The purpose of this track policy is to minimize nonessential pre-race and post-race personnel interactions and to maintain proper social distancing during these stages. **DRIVERS MUST WEAR A MASK AT ALL TIMES.**

PRE-RACE

- Drivers must exit the Drivers’ Room with a minimum social distance of six feet of spacing between themselves.
- Drivers will receive instructions for their respective horses within the Paddock using the predetermined stalls and without any nonessential social gathering.
- The Paddock must remain clear at all times aside from grooms and horses (although trainers may temporarily be in attendance during the hooking up of race bikes).

POST-RACE

- Drivers will unhook race bikes and grooms hook up jog carts on the track at a safe social distance apart from other drivers and horses – no nonessential social gathering is permitted.
- Any post-race debriefing or discussion will occur outside the Paddock with minimal participants and at safe social distances.
- Winning drivers may not stop at the Winner's Circle and will parade past the Winner's Circle for video filming only.

NOTE: Access restrictions to the Grandstand and Paddock for non-drivers are specified in the Watch and Wager “Track Access Restriction Policy.”
