

## Microsoft Teams – Patient/Client Instructions for iOS device: iPhone & iPad

We recommend installing the Microsoft Teams app prior to your scheduled telemedicine appointment.

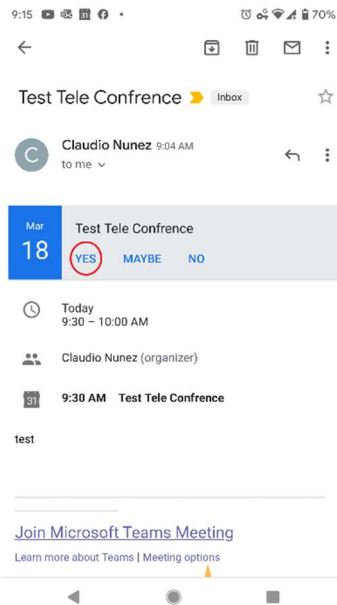

**Note: Install this app using WIFI so you don't incur data charges**

### Installing Microsoft Teams App – iOS device

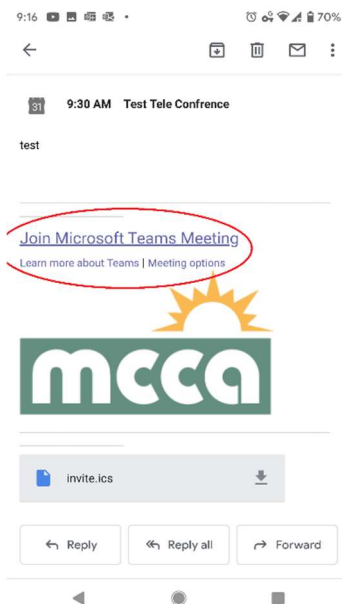

Open the App Store on your Apple device and search for the Microsoft Teams App  
Click the “Install”

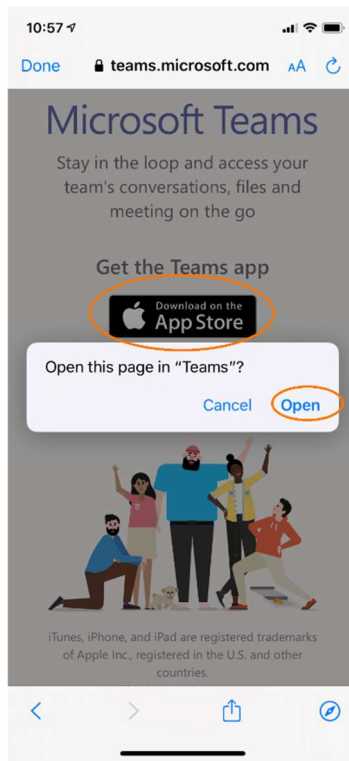

Open up Email Sent to you and select Yes to accept Invitation.

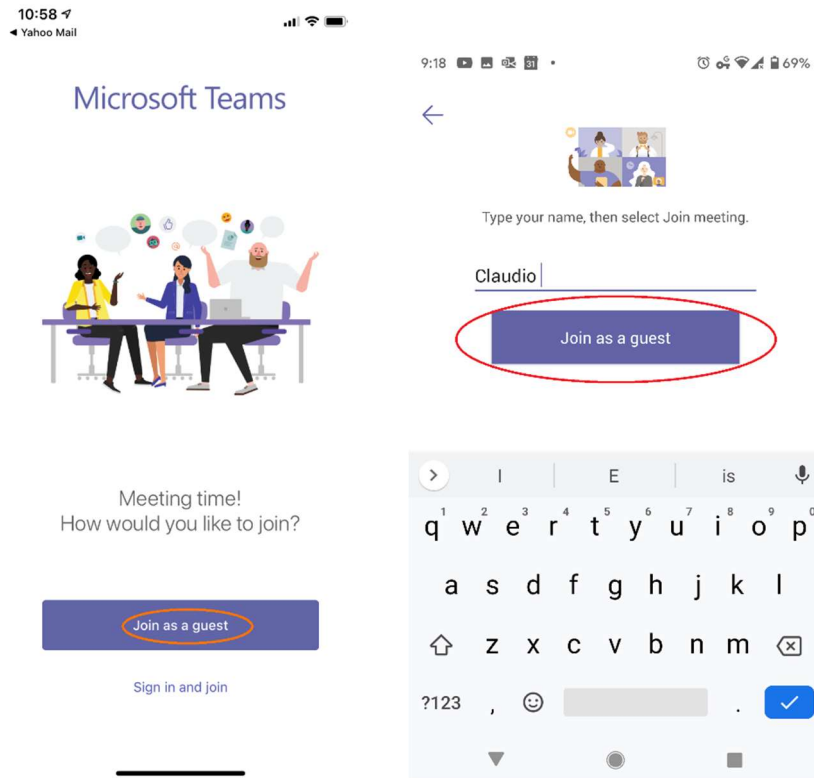

After Selecting Yes, scroll to the bottom of the Email Invite and select Join Microsoft Teams Meeting.

Once you select Join Microsoft Teams Meeting, it will direct you to a web page to open the Teams App or to Download from the App Store

Select Join as Guest and type your Name and Select Join as Guest

# Allow Microsoft Teams App Permission to access Microphone and the Camera

(Due to HIPAA regulations MCCA will not record audio/video from any of our Telemedicine services)
