Inspired by the traditional French brasserie, this collection infuses classic mosaic patterns with a contemporary color palette. 10”x10” concrete tiles that have a “faux” grout line to appear as if it is a mosaic. Extremely durable, easy to maintain, and endless options of colorways (visit our website to render your own).

Designed in collaboration with Studio K for hospitality and residential applications, The Brasserie Collection adds modern, understated elegance to any project.

Custom Colorways

Custom is our Specialty!

Love a pattern but prefer different colors? That’s perfect because Custom is our specialty, and we make it very simple with the shortest lead times on the market. Our website has a rendering tool where you can take each design, in any layout, and customize the colors.

Custom colorway process:
1) Go to our website and click on ‘Design Your Own’
2) Select the pattern you like
3) Click on a color in the color palette, then click on the desired space within the design shown on the left.
4) Click ‘Next’ to see your creation. Here you can click on individual tiles to resize them to create different pattern layouts.
5) Download the ‘record sheet’ and record your information so we know where colors are going.

Voila!
The finished product installed:
BLUFF custom colorway in White + Gray

Orders + Lead Times

Standard + Custom Colorways
Anything that is not “Quick Ship or Factory Stock” is made to order.

Quick Ship - Factory Stock
Quick Ship: Factory Stock is available in 8x8 polished only. Pull Box Qty: 5.3 SP per box (12 pcs)

Lead Times
Quick Ship: 1-2 days P.O.B Miami FL
Factory Stock: 3-4 weeks P.O.B Miami FL
Made to Order: 6-8 weeks P.O.B Miami FL
For orders over 1,000 SF, please inquire.

Shipping
All orders ship on a pallet from Miami FL 33178
Tiles weigh approx. 7.5 lbs per SF.

How Much to Order
When the total net sq. ft. is determined, 10-13% overage is recommended. The Room layout is typically the deciding factor (for example, a room with a lot of twist and turns will require more cuts, thus order averaging accordingly).

Samples

Samples: What We Stock
Patterns: what we show in the catalog or on the website is what we stock samples of. We call these our Standard colorways, even though they are far from standard!
We stock pattern samples in 8x8, polished only.
Solid colors: we stock 2x2 color chips, polished only.
Samples are stocked in Wisconsin 53229
Sample orders ship in 1-2 days from order date, via UPS Ground or FedEx (please call for expedited shipping).

Samples: Custom Colorways
Please read the Custom Colorway section to the left. Just like an order, we will need the ‘Record Sheet’ filled out so we know where colors are going.
A photo will be sent to you prior to shipping.
ETA for Custom Samples: 2-3 weeks, shipped via Air freight OR 4-5 weeks, shipped via Boat.

OTHER INFO

Website
Our website houses all sorts of great information. Please explore it in great detail. www.sabinehill.com

A Handmade Tile
Cement tiles first appeared in the late 19th Century, and its manufacturing process has stayed exactly the same. Handmade from skilled artisans, these tiles consist of cement, sand, marble-dust, and mineral pigments. Each Sabine Hill tile is individually handmade and slight variations such as thickness, shade, slight imperfections, irregular edges and crazing are inherent in this type of product. These characteristics add to the products natural appeal and do not compromise the performance of the tile.
Please visit our website to watch a video on how our tiles are made.

Applications
Sabine Hill tiles are suitable for wall and floor coverings for residential and commercial environments and are appropriate for both interior and exterior applications. Tiles can be installed in wet areas as well. Please read the Technical Information for additional information, and please inquire if you have any questions.

Polished vs Unpolished
Polished cement tiles will not have a high sheen as you see in marble, but rather a soft patina with a soft, smooth feel. Unpolished tiles will have a matte finish and are a bit sandy to the touch.

Testing Data
Product Testing Service by TCA (Tile Council of North America, Inc.), TCA test report number: TCA-29-005
Average Coefficient of Friction:
Unpolished / Dry: 0.88 Unpolished / Wet: 0.92
Polished / Dry: 0.83 Polished / Wet: 0.68
