## SPECIFICATION SHEET

18V 1/2" HI Torque Driver / Drill is used to assist in the raising and lowering of a manual basketball winch.

The operation utilizes a cordless design to allow ease of use without the necessity of power cords. The unit is equipped with an adjustable clutch for turning the backstop winch via the included adapter thereby offering a level of safety protection to the backstop winch and operator. Reversible drill allows raising and lowering of the backstop winch.

The power and torque is sufficient to raise or lower the Jaypro Model TW-800M Manual Backstop Winch, as well as many others.

The UL listed unit is complete with 2 rechargeable 18V batteries, 110V charging stand, cordless drill and carrying case. Winch adapter fitting is also included that easily fits into the keyless chuck of the drill.

The unit is warranted for a period of one (1) year from the date of purchase.
