

Jaypro Wall Pad & Volleyball Pad Colors

Jaypro Wall Pads & Volleyball Pads are fully wrapped with the highest quality reinforced vinyl, providing heavy-duty protection for indoor impact areas. The selections of vinyl-coated polyester fabrics, below, are enhanced by a leather-like emboss pattern, each with an average weight of 14 oz. per square yard. Jaypro will custom make wall pads in virtually any shape or size, including those for columns, beams, doors and stage fronts.

Please note: The same vinyl used for Jaypro Sports Wall Pads is also used for Volleyball Pads.
