Goal Anchors

SAS-95 Auger

14" steel auger intended for use in loose or sandy soil. Steel wire lanyard provided to attach to existing framework. Sold individually or in sets of four.

SGA-91 J-Hook Stake

Rugged 18" J-style steel stake fits over most backstays. Best suited for firm and compressed soil conditions. Steel wire lanyards included. Sold individually or in set of four.

SS-18 Spike

18" long $\frac{3}{4}$ " galvanized steel stake for use in firm and tightly compacted soils. Steel wire lanyards allow for attachment to any goal. Sold individually or in set of four.

SWB-454(set) & SWB-451(ea) Sand Bag

Ideal where in-ground anchoring devices are not appropriate. Saddle bag design with handle, rests over the rear frame to provide necessary counterweight. Filled with 50lbs of dry sand. Sold individually or a set of four bags.

SGA-92 Sleeve Anchor

Alternate when drive-in style anchors cannot be used and unrestricted portability is not necessary. The permanent 18" deep anchor sleeves and guide cables allow for limited movement to accommodate field maintenance, while providing essential goal anchoring. Require installation.
