What Makes Us Unique?

Traditional Orthodontics

- **Waits until child is older to treat**
- **Views crooked teeth as the primary concern**
- **Extractions may be part of treatment**
- **Recommends lifetime wear of retainers**
- **Views teeth grinding**
 - as a behavior child will grow out of
 - habit adults will stop with a mouthguard
- **Does not view tongue, lip, or buccal restrictions (TOTs) as part of the treatment plan**

In Harmony Orthodontics

- **Treats holistically**
- **Interceptive**
 - can start treatment younger
- **Views problems as a symptom of an underlying cause**
- **Avoids extraction of teeth**
- **Achieves facial harmony**
 - retain teeth in proper position
- **Improves child's growth & development of teeth, jaws, and airway**
- **Promotes nasal breathing**
 - no more mouth breathing, snoring, teeth grinding
- **Works with other healthcare professionals to achieve best results (ie: Speech/OMT/PT/OT/MD/DC)**
