## MEXICO'S ISLA HOLBOX HAULS IN ANOTHER HIDEOUT

We already love this boho island off the northern coast of the Yucatán for its relaxed beach-to-bar lifestyle. But for those who have yet to check out its white sands and milky green waters, the opening of the breezy, chic **Casa Cat Ba** (right) is the reason to do so now. The petite, high-taste hotel has just five rooms, designed with vintage wardrobes and an earthy palette with touches of driftwood and rattan that feels right for the island. The palm-studded gardens stretch right onto the sand, where hammocks strung under the shade of a palapa may be the most relaxing place on the island to stare out at that glowing sea, icy Dos Equis in hand.
