HOW WE CAN HELP

Our approach is to speak the language of the sectors we serve. We're a non-traditional law firm that cuts through the noise, as we have deep personal experience of working and living in high-risk jurisdictions.

That, along with our low overheads, keeps prices down and means also that we understand the importance of giving a personal service, 24/7, to people who frankly have more important things to worry about.

LEGAL SERVICES

We operate in the legal fields of:

- + *Public and private international law*
- + *Domestic and international commercial and corporate law*
- + *Criminal, regulatory and civil law*
- + *Litigation*

PRACTICE AREAS

General UK focus

While many of our clients operate in high-risk overseas jurisdictions, we have clients who are UK-based but who provide knowledge or services into those markets. Whether it is a company restructure, setting up a company or you have contractual disputes, our personal understanding of your industry helps us to get to the core of this issues quicker.

High Risk Jurisdictions

We view our overseas markets as being either 'high-risk jurisdictions', or 'complex environments'. We classify high-risk jurisdictions as those that have ongoing conflict (which could be full scale internal or external armed conflict), a significant insurgency or terrorist campaign, or countries around which piracy is prevalent.

Complex Environments

We make the distinction between complex environments and high-risk jurisdictions deliberately. We ensure you are aware of the different approaches you should adopt to each.

NON-LEGAL AND SPECIALIST SERVICES

As an Alternative Business Structure (ABS), we provide commercial services which are complementary to our legal practice, and that come from many decades of sensitive, specialist experience in international investigations and discreet governmental work.

- + *Physical and financial asset recovery, asset tracing, forensic accountancy and specialist investigations*
- + *'Ground truth' reporting in high-risk jurisdictions and complex environments*
- + *Advice and guidance on achieving safety and security compliance, including quality management systems*

- + *Cyber security; pre-breach advice and post-breach remedy*
