

Parents Weekly Update for Class 3

Week beginning 19th July 2021

Well, we have made it to the end of term!

Mrs Wright and I would like to thank you for the support you have given Class 3 this year and particularly during these challenging time. We have loved teaching Class 3 this year and we are super impressed with the resilience the children have shown and the way they have continued to work hard both with the home learning and in school.

The highlight of the week of course has been the Egyptian Day on Monday. The children looked amazing in their costumes and the workshop leader was impressed with their knowledge about Ancient Egypt and the range of accurate vocabulary they used. I am sure you would all agree that Mrs Wright deserves a big Thank You for not only organising the day, but also for all the hard work she has put into making the history lessons so fun and engaging.

This week we have finished off our Electricity topic with a lesson about renewable and non-renewable energy. The children also completed their post topic assessments which show the progress the children have made and how much they have learnt about electricity during the topic.

Summer Homework- we really want the children to have a lovely relaxing holiday and a break from school work. They have all had a challenging school year and this year more than ever, they deserve to have a well-earned rest.

For those of you who would like to keep things ticking over during the holiday, I would suggest working on Times Tables and I have sent home the last of the maths activity mats for this term. There is no need to return these to school. There are some links for times table practise below.

You could also sign up for the Leeds Library Reading Challenge if you haven't done already. Information about this is below.

Leeds Libraries Summer Reading Challenge- you will have all received the information this week about the summer reading challenged that is being launched by Leeds libraries this weekend. We are encouraging as many families as possible to get involved. It is a great way

to promote reading over the summer holiday and we would love to see the children's certificates when they return to school in September. All you need to do is visit a Leeds library and they will give you all the information you need. It is easy to join and free to take part and there are no fines for overdue books. We will be celebrating all the children who complete the challenge when we return to school in September- Happy Reading!

On behalf of all the Class 3 staff, I would like to thank you all for your generous gifts and cards, they are really appreciated. We will be sending a more personal acknowledgement of our thanks in due course, but I didn't want to wait until next term to let you know how much we appreciate your kind words and gifts.

Parents of children in year 3 will be hearing from Mrs Wright soon with more information about next year.

All that remains is to wish you all a very happy and relaxing summer break and we look forward to seeing you all safe and well in September.

Mrs Burnley and Mrs Wright
