

# Our Lady of The Most Holy Rosary Catholic Academy

# Reception Homework Menu

Pick **at least four** activities from the menu below to complete. Please take photos and keep examples of any of the activities that your children complete as they will contribute towards their profile. These need to be completed by October half term.

### Space Shape and Measure

Time - Look at a clock face and learn to identify o'clock. Look at lots of different clock faces. How are they different and how are they all the same? Create a timetable for yourself showing what time you get up, have breakfast etc.

### Writing

Draw a picture of you. What makes you special? Try to write a sentence about yourself. Start your sentence with a capital letter and end it with a full stop. Can you write your name on your own?

### Number

Play a board game with an adult. Can you count the spots on the dice and move your counter the correct number of spaces?

### Being Imaginative

Play dress-up at home with your family. Can you use different voices? Think about how the different characters might walk and act.

### People and Communities

What did you do this summer? Can you draw some pictures to show what you've been doing. Ask your friends and family members what they did. Did you all do the same thing? What was the best bit?

### Physical Development

Exercise and games - Take part in some daily physical activities. This could be jumping on a trampoline or playing football. Take a minute to see what effects the exercise is having on you. Are you breathing heavier? Is your heart beating faster? Are you sweating?

### Reading

Continue to access lots of different sources of reading, share books with your adults including stories and information texts. Access the online resources at [phonicsplay.com](http://phonicsplay.com) and play lots of the games in phase 2 & 3. Practise your blending and sentence reading skills.

### Exploring and Using Media and Materials

Go on an Autumn walk with an adult in your house. Collect materials as you walk (leaves, sticks, etc). When you get home use these to create a collage. Talk about the different textures and colours you can see.

### The World

Talk to your adult about what season we are moving into. Look outside to see what changes are happening in your garden/local park. What will happen to our weather as we move further into the season? Which season has been your favourite? Why do you like that one the best?

**Ongoing activities**—these are the things you should be doing all the time

Tick here to track what you've done!

Practise writing your first name and surname. Make sure the letters sit on the line and only the starting letter is a capital. Try really hard to form your letters correctly.

date

Read every day. Read lots of different types of books, from stories and information books to magazines and recipes. You can also access lots of e-books online. Remember to explore and use all the new vocabulary you come across.

Name writing

Reading

Numbers

Exercise

Practise your counting. Make sure you can do lots of things with the numbers 0-20. Can you count in order, can you count items (making sure you only give one number for each item), can you recognise and order all the numerals?

date

Keep yourself active and healthy. Take exercise breaks and keep moving. Do your own 5-a-day by following a just dance youtube clip or signing up to gonoodle and taking part in a exercise session or guided dance.
