4) GENERAL FEEDBACK:

i. What would I like to see in the NT program that would improve the effects for myself and other traders starting the same peak performance journey?

1. I like the idea of being surrounded by peak performers, so perhaps a forum for the traders to speak with one another and be a team.

2. Shorten the Functional Areas in half by making it two lessons per week, I believe this will give better focus.

5) TESTIMONIAL

a. Having completed this first phase of the NT program, please write a testimonial for other traders in the space provided below.

1. If you want to be successful at anything in life, then you will need to seek and surround yourself with great mentors, and this is what the NeuroTrader program provides in four ways. First, you get access to Chris Capre's Price Action Trading course which is by far the best education on learning how to trade and will completely alter how you look at markets. Second, Ken provides a detailed overview of the key functional areas of your life and how they can affect your trading. By asking questions about these key areas, you are able to recognize where you may have deficits and address them. Third, Chris and Ken are directly available for any questions you may have on your journey and this is a personal level of care that goes beyond just trading. Finally, the biofeedback device acts as a mentor in itself, letting you know when you are in peak performance and therefore enabling you to access it on a more consistent basis to make you the best possible trader.
