4) GENERAL FEEDBACK:

i. What would I like to see in the NT program that would improve the effects for myself and other traders starting the same peak performance journey?

1. The first phase has certainly been very informative with regards to the information on the 10 functional areas of life. I don't have any specific suggestions on improvement at this stage but look forward to undertaking the next phase.

5) TESTIMONIAL

a. Having completed this first phase of the NT program, please write a testimonial for other traders in the space provided below.

1. The preliminary psychological phase covering the 10 functional areas of life provides a balanced consideration of factors that must be taken into

consideration to becoming a peak performing trader. The Neurotrader program clearly enunciates the importance and significance of these functional areas for both the advanced and novice traders in an easily understood manner.
