5) TESTIMONIAL

- a. Having completed this first phase of the NT program, please write a testimonial for other traders in the space provided below.
 1. There is an old saying, the origin of which is uncertain, that "When the student is ready, the teacher will appear." I have searched for that "teacher," and although I have been blessed by the influences of a number of good teachers in my life, no one has genuinely fit the role of "the teacher" for me until Ken. I signed up for this training to become a consistent, peak performance trader, but Ken's teaching has challenged me in every area of my life to bring congruency to a single purpose - one which, although it certainly encompasses trading, is so much more than I ever asked for or imagined.
