- c. The three most valuable lessons I have received personally from the mentoring sessions are:
  - i. A lot of my beliefs are rooted from childhood and parents
  - ii. Need to face those beliefs and start questioning them and find evidence that is not true. Avoiding confirmation bias by finding evidence that questions those beliefs.

- iii. How i am caught in a loop due to subconscious beliefs that i didnt know i have.  
Like i dont deserve to succeed.

### 3) Trading results:

- a. I am seeing a positive change in my trading results because of the NT program.

#### 4) GENERAL FEEDBACK:

i. What would I like to see in the NT program that would improve the effects for myself and other traders starting the same peak performance journey?

1. A buddy program. I felt that having a friend that is going through the same program will help to give each other support. My mentor will be busy so having a buddy to push each other would be great.

NeuroTrader

2. A forum for open discussions. Anonymously. I feel that some information is pretty personal but i think it will help all of us when we realised we aint the only ones with the same problems. And we get to see how to tackle it.

## 5) TESTIMONIAL

- a. Having completed this first phase of the NT program, please write a testimonial for other traders in the space provided below.

1. A great program that provides mentorship which helps to remove subconscious beliefs that have been holding us back from success. To learn how different aspects of our lives are correlated is a priceless realization how often we contradict ourselves and thus, unable to move forward.
