4) GENERAL FEEDBACK:

- i. What would I like to see in the NT program that would improve the effects for myself and other traders starting the same peak performance journey?
 - 1. In a future podcast: Video of using the device, not just the graph of results
 - 2. More of an agenda for the group sessions since it can go on for a long time and have only 1 or 2 important points covered.

5) TESTIMONIAL

- a. Having completed this first phase of the NT program, please write a testimonial for other traders in the space provided below.

1. Ken has a calming voice. Through his audio delivery of material it is very thorough in terms of the content that he is trying to get across. The general message appears to be to strive to make yourself better as a person in all aspects of your life. Only then can you want to do the same as a trader. It is a slow and steady approach to the course since it is trying to question your beliefs about yourself and then encourage you to change. The after effects of each course module makes me want to trust my own judgement more.
